MUNICIPAL REGULATIONS.

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the City Government.

The regular monthly meetings of the City Government occur on the second Monday of each month.

HENRY E. CHAMBERLIN,

City Clerk.

ORDINANCES AND JOINT RESOLUTIONS.

PASSED DURING THE YEAR ENDING JANUARY 10, 1910.

CITY OF CONCORD—ORDINANCES.

AN ORDINANCE IN AMENDMENT OF SECTION 24 OF AN ORDINANCE ENTITLED "AN ORDINANCE IN AMENDMENT OF ALL SECTIONS IN CHAPTER 18 OF THE REVISED ORDINANCES RELATING TO THE FIRE DEPARTMENT."

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. That section 24 of an ordinance entitled "An ordinance in amendment of all sections in chapter 18 of the Revised Ordinances relating to the Fire Department" be, and hereby is, amended by striking out all of said section and inserting in place thereof the following:

SECT. 24. Permanent officers and men of the department shall be entitled to a vacation without loss of pay of fourteen days in each year. In addition they shall be entitled to be off duty without loss of pay two days in each month, such two days not to be taken in the same week. On the weeks that they are not off duty for a day, under the above provision, they shall be entitled to be off duty for one night without loss of pay. All vacations and absences from duty under the above to be under the direction of the chief engineer.

SECT. 2. This ordinance shall take effect on the first of the month after its passage.

Passed, March 8, 1909.

AN ORDINANCE FIXING THE SALARIES OF THE DEPUTY MARSHAL, CAPTAIN OF THE NIGHT WATCH, AND REGULAR PATROLMEN.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. The Deputy Marshal shall receive the sum of nine hundred and seventy-five dollars (\$975) per annum, which shall be in full for all services rendered by him.

SECT. 2. The Captain of the Night Watch shall receive the sum of nine hundred and twenty-five dollars (\$925) per annum, which shall be in full for all services rendered by him.

SECT. 3. The regular patrolmen shall each receive the sum of nine hundred dollars (\$900) per annum, which shall be in full for all services rendered by them.

SECT. 4. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect on the first day of April, 1909.

Passed March 8, 1909.

AN ORDINANCE IN AMENDMENT OF CHAPTER 21 OF THE REVISED ORDINANCES RELATING TO THE STREET SPRINKLING PRECINCT.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. That chapter 21 of the revised ordinances be and hereby is amended by striking out of the said ordinance all except the first paragraph thereof, and inserting in place of the part so struck out the following:

Said street sprinkling precinct shall embrace all the territory, together with its inhabitants, situated within the following described limits, to wit: Commencing at the corner of South Main and West streets, thence easterly in a straight line to the main track on the Concord and Montreal railroad; thence northerly by the said main track and the main track of the Concord division of the Boston & Maine railroad to Penacook street; thence westerly by said Penacook street to Bradley street; thence southerly by Bradley street to Church street; thence westerly by Church street to Rumford street; thence southerly by Rumford street to Franklin street; thence westerly by Franklin street to Charles street; thence southerly by Charles street to Beacon street; thence easterly by Beacon street to White street; thence southerly by White street to Washington street; thence westerly by Washington street and Center street to Liberty street; thence southerly by Liberty street to Pleasant street; thence easterly by Pleasant street to Spring street; thence southerly by South Spring street to Marshall street; thence westerly by Marshall street to Fuller street; thence southerly by Fuller street to Oak street; thence easterly by Oak street to South Spring street; thence southerly by South Spring street to Clinton street; thence easterly by Clinton street to junction of South street and Broadway; thence southerly by south street to Allison street; thence easterly by

Allison street to South Main street; thence northerly by South Main street to junction of South Main street and West street, the point begun at; also from the junction of Water street and South Main street, southerly on Water street and Hall street to the southerly boundary of land of D. T. Slack; Bridge street from Main street easterly to the westerly end of Loudon Bridge; North State street from Penacook street northerly to the Concord & Claremont railroad crossing; Auburn street from High street northerly to Franklin street; School street from Liberty street westerly to Giles street; Giles street, northerly from School street to Park Ridge; Park Ridge easterly from Giles street to Ridge Road; Ridge Road northerly from Center street to Forest street; Forest street easterly from Ridge road to Auburn street; Center street westerly from Liberty street to Giles; Warren and Pleasant streets and Dunbarton Road from Liberty street westerly to the Turkey River bridge at St. Paul's School; Clinton street from South Spring street westerly to Fruit street; Broadway from Allison street southerly to the entrance of Rollins' Park; South Main street southerly from Allison street to Maitland street; Pillsbury street from South Main street westerly to the westerly line of the Margaret Pillsbury Hospital lot.

Said precinct shall include, in addition to the territory within the aforesaid limits, all lots, with their inhabitants, abutting on the street hereinbefore named so far as the lines hereinbefore described extend on said streets.

SECT. 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect upon its passage.

Passed March 31, 1909.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the sewerage precinct of said city, the sum of six thousand six hundred ninety-eight and 75-100 dollars (\$6,698.75) to defray the necessary ex-

penses and charges of the precinct for the ensuing financial year, which shall be appropriated as follows:

For repairs and construction.....	\$2,000.00

SECT. 2. There shall be raised in like manner the sum of forty-nine thousand seven hundred two and 50-100 dollars (\$49,702.50) for the support of schools for the ensuing financial year, which, together with the income of the Abial Walker fund, shall be appropriated and divided among the several school districts according to the valuation thereof.

SECT. 3. In addition to the foregoing there is appropriated for the cemeteries of the city one half of the income from the sale of lots and the income derived from the care of lots and grading, which sum shall be deposited by the superintendent, or others receiving them, in the city treasury. The care of lots for which the city holds trust funds shall be paid from the money appropriated for the care of cemeteries and so much of the income of these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year and the remainder, in each instance, credited to the individual funds.

SECT. 4. In addition to the foregoing there is appropriated for the use of the Public Library in the purchase of books the amount collected for fines.

SECT. 5. This ordinance shall take effect upon its passage.

Passed April 12, 1909.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE STREET SPRINKLING PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the street sprinkling precinct of said city, the sum of eight thousand dollars (\$8,000.00) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For sprinkling streets..... \$8,000.00

SECT. 2. This ordinance shall take effect upon its passage.

Passed May 10, 1909.

AN ORDINANCE EXTENDING THE STREET SPRINKLING PRECINCT.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. The street sprinkling precinct shall include, in addition to the territory described in chapter 21 of the Revised Ordinances, as amended, the following territory: Pillsbury street from the westerly line of the Margaret Pillsbury Hospital lot to Broadway; Dunklee street from Pillsbury street to Allison street; South street from the corner of Allison and South streets southerly to a point 200 feet south of Pillsbury street; Auburn street from Franklin street 250 feet northerly. All lands, with the inhabitants thereof, abutting on the above described streets and parts of streets, are hereby included in the street sprinkling precinct.

SECT. 2. This ordinance shall take effect upon its passage.

Passed July 12, 1909.

AN ORDINANCE IN AMENDMENT OF SECTION 9 OF CHAPTER VII OF THE REVISED ORDINANCES.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. That section 9 of chapter VII of the Revised Ordinances be, and hereby is, amended by adding at the end of said section the following:

No person or persons shall sit, stand or lounge in or about the doors, windows or passageways to any store, shop, office, block or other building, except the owners thereof, or persons having the permission of such owners, after having been requested by the owner or city marshal, assistant city marshal or any police officer to depart therefrom.

Passed August 9, 1909.

AN ORDINANCE RELATING TO THE EMPLOYMENT AND PAYMENT OF LABORERS.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. That the heads of departments of the city of Concord, in employing men for city work, shall, so far as possible, with due regard for the public welfare, give preference to native born or naturalized American citizens.

SECT. 2. That the minimum rate of wages to able-bodied city employees working by the day shall be one dollar and sixty cents (\$1.60) per day of nine hours. City employees working by the day or week shall be paid for over time on week days at the per diem rate, and for over time on Sundays at one and one-half times the per diem rate.

SECT. 3. That after October first, 1909, the wages earned each week by employees of the city who work by the day or week shall be paid within eight days after the expiration of the week in which such wages are earned, or upon demand after that time.

SECT 4. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect upon its passage.

Passed August 9, 1909.

AN ORDINANCE TO EXTEND THE WATER PRECINCT IN WARD THREE.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. That the water precinct as heretofore existing be extended to embrace all the territory, together with the inhabitants, within the following described limits, to wit: Beginning at the northwest corner of the passway across the dam and Hutchins street; thence westerly by the southerly line of

Hutchins street and West Parish road to the westerly line of land of Mrs. Jerry Harrington; thence northerly by said boundary line to a point 200 feet northerly of Hutchins street; thence easterly in a line parallel to Hutchins street and West Parish road to the westerly line of land of the late Joseph Eastman.

SECT. 2. This ordinance shall take effect upon its passage.

Passed September 13, 1909.

AN ORDINANCE IN AMENDMENT OF CHAPTER 30 OF THE REVISED ORDINANCES RELATING TO INSPECTOR OF ELECTRIC WIRES, AND ESTABLISHING THE OFFICE OF SUPERINTENDENT OF FIRE ALARM AND INSPECTOR OF ELECTRIC WIRES IN WARD ONE.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. That section 1 of chapter 30 of the Revised Ordinances is hereby amended by adding to said section the following: There shall be a superintendent of fire alarm and inspector of electric wires to have charge of the fire alarm in Ward One and to perform the duties of inspector of electric wires in Ward One. Such officer shall be appointed by and shall perform his duties under the direction of the chief of the fire department, and may be removed by the chief of the fire department at any time. He shall, before entering upon the duties of the office, take the oath prescribed by law for the faithful performance of the duties of such office. The salary of such officer shall be one hundred dollars per year to be paid in equal semi-annual payments on the first days of January and July in each year and shall be in full for all services rendered by him.

SECT. 2. This ordinance shall take effect upon its passage.

Passed December 30, 1909.

AN ORDINANCE PROHIBITING THE DISTRIBUTION TO PERSONS ON THE STREETS, AND THE THROWING, PLACING OR LEAVING ON THE STREETS, OF HANDBILLS, CARDS, PAPERS AND OTHER ADVERTISING MATTER.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. No person shall, in any street, lane, alley or other public place in the city of Concord, distribute to the persons there being or passing any hand bills, cards, papers or advertising

matter of any kind or description, and no person shall throw, place or leave in any street, lane, alley or other public place any handbills, cards, papers or advertising matter of any kind or description. This ordinance shall not be construed to prohibit the selling of newspapers and periodicals upon the streets and other public places in the city.

SECT. 2. Any violation of this ordinance shall be punished by a fine of not exceeding ten dollars.

SECT. 3. This ordinance shall take effect upon its passage.
Passed December 30, 1909.

JOINT RESOLUTIONS.

A JOINT RESOLUTION PROVIDING FOR THE PRINTING OF ROSTERS OF THE CITY GOVERNMENT.

Resolved by the City Council of the City of Concord as follows:

That the city clerk be instructed to prepare a roster of the present city government and cause copies thereof to be printed for the use of the members; and that the expense of printing the same be charged to the account of printing and stationery.

Passed January 26, 1909.

A JOINT RESOLUTION IN RELATION TO PAYING SALARIES, PAY-ROLLS AND RENTS.

Resolved by the City Council of the City of Concord as follows:

That the mayor be, and hereby is, authorized to draw his warrant on the city treasurer for the payment of all salaries, pay-rolls and rents as the same shall become due during the present municipal term, and all bills so paid shall be laid before the committee on accounts and claims at their next meeting.

Passed January 26, 1909.

A JOINT RESOLUTION PROVIDING FOR THE PRINTING OF THE MAYOR'S INAUGURAL ADDRESS.

Resolved by the City Council of the City of Concord as follows:

That the city clerk be authorized and instructed to have printed copies of the mayor's inaugural address, the expense of same to be charged to the account of printing and stationery.

Passed January 26, 1909.

A JOINT RESOLUTION AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS TO MAKE CURRENT REPAIRS.

Resolved by the City Council of the City of Concord as follows:

That the committee on lands and buildings be authorized to expend such sums as may be necessary for current repairs, not exceeding \$200, in any one month, the same to be charged to the appropriation for repairs to buildings.

Passed January 26, 1909.

A JOINT RESOLUTION ASKING FOR SEALED PROPOSALS FOR PRINTING AND BINDING THE ANNUAL CITY REPORTS.

Resolved by the City Council of the City of Concord as follows:

That the city clerk be, and hereby is, instructed to ask for sealed proposals for printing and binding the city reports for the year 1908, and submit the same to the finance committee, who shall have full power to act in the matter.

Passed February 8, 1909.

A JOINT RESOLUTION APPROPRIATING FIVE HUNDRED DOLLARS (\$500) FOR TEXT-BOOKS USED IN THE UNION SCHOOL DISTRICT.

Resolved by the City Council of the City of Concord as follows:

Section 1. That the sum of five hundred dollars (\$500) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated for the purchase of text-books used in Union School District.

SECT. 2. This resolution shall take effect upon its passage.

Passed March 8, 1909.

A JOINT RESOLUTION AUTHORIZING THE TRANSFER OF FUNDS OF THE WEST CONCORD SEWERAGE PRECINCT.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer be, and hereby is, authorized to transfer the sum of four hundred dollars (\$400) from the West Concord Sewerage Precinct sinking fund account to the city treasury, said fund to constitute a part of the amount to be raised for the sinking fund for 1909, which, together with one thousand

dollars (\$1,000) raised by taxation, amounts to one thousand four hundred dollars (\$1,400), the sum required by ordinance.

Passed March 31, 1909.

A JOINT RESOLUTION RELATING TO LIGHTING CITY BUILDINGS IN PENACOOK WITH ELECTRIC LIGHTS.

Resolved by the City Council of the City of Concord as follows:

That the mayor and city solicitor are authorized and instructed to make a contract with the Penacook Electric Light Company for lighting police station and fire station at Penacook with electric lights for a term of five or ten years.

Passed March 31, 1909.

A JOINT RESOLUTION APPROPRIATING TWO AND 30-100 DOLLARS (\$2.30) TO REIMBURSE W. P. LADD, COLLECTOR OF TAXES.

Resolved by the City Council of the City of Concord as follows:

That the sum of two and 30-100 (\$2.30) be, and hereby is, appropriated to reimburse W. P. Ladd, collector of taxes, for the City of Concord, it being for money received for taxes in excess of the assessment and refunded from his own funds, the same to be paid from the account of incidentals and land damages.

Passed March 31, 1909.

A JOINT RESOLUTION APPROPRIATING MONEY FOR THE PURPOSE OF PURCHASING TWO HORSES FOR FIRE DEPARTMENT.

Resolved by the City Council of the City of Concord as follows:

That the sum of three hundred seventy-five dollars be, and hereby is, appropriated from any money in the treasury not otherwise appropriated for the purchase of two horses for the use of the fire department and the same to be charged to account of fire department.

Passed April 12, 1909.

A JOINT RESOLUTION APPROPRIATING TWO HUNDRED AND SIXTY-FOUR AND 68-100 DOLLARS (\$264.68) FOR TEXT-BOOKS USED IN PENACOOK SCHOOL DISTRICT.

Resolved by the City Council of the City of Concord as follows:

SECTION 1. That the sum of two hundred and sixty-four and 68-100 dollars (\$264.68) be, and hereby is, appropriated out

of any money in the treasury not otherwise appropriated, for the purchase of text-books used in Penacook School District.

SECT. 2. This resolution shall take effect upon its passage.

Passed April 12, 1909.

A JOINT RESOLUTION PROVIDING FOR THE PRINTING OF COPIES OF THE PROPOSED CITY CHARTER.

Resolved by the City Council of the City of Concord as follows:

That the mayor is hereby authorized to procure the printing of 2,500 copies of the proposed city charter for public distribution, the same to be charged to the account of incidentals and land damages.

Passed April 12, 1909.

Resolved by the City Council of the City of Concord, as follows:

That the sum of one thousand dollars (\$1,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, for printing and stationery.

Passed, November 8, 1909.

A JOINT RESOLUTION PROVIDING FOR A SPECIAL JOINT COMMITTEE TO INVESTIGATE AND REPORT ON THE SUBJECT OF IMPROVEMENTS IN, AND ADDITIONS TO, THE FIRE PROTECTION OF THE CITY.

Resolved by the City Council of the City of Concord, as follows:

That the mayor be, and hereby is, authorized and instructed to appoint a special joint committee of the city council, consisting of himself as chairman *ex-officio* and four others, to whom shall be referred "A Joint Resolution authorizing the purchase of land as a site for a fire station, and the building of a fire station in ward seven," and also the consideration of the needs and demands of the different sections of the city for fire protection. Said special committee shall make a thorough investigation of such needs and demands and shall report its findings, and recommend a permanent plan for improvements in, and additions to, the fire protection of the city, to the city council at, or before, the regular meeting for April, 1910.

Passed, November 8, 1909.

A JOINT RESOLUTION APPROPRIATING THREE DOLLARS AND SIX CENTS (\$3.06) TO REIMBURSE JAMES SCULLY FOR TAXES ERRONEOUSLY ASSESSED.

Resolved by the City Council of the City of Concord, as follows:

That the sum of three dollars and six cents (\$3.06) be, and the same hereby is, appropriated to reimburse James Scully for taxes erroneously assessed. The amount hereby appropriated shall be charged to the account of incidentals and land damages.

Passed, December 30, 1909.

A JOINT RESOLUTION APPROPRIATING ELEVEN DOLLARS AND FIFTY CENTS (\$11.50) TO REIMBURSE JEFF ROGERS FOR TAXES ERRONEOUSLY ASSESSED.

Resolved by the City Council of the City of Concord, as follows:

That the sum of eleven dollars and fifty cents (\$11.50) be, and the same hereby is, appropriated to reimburse Jeff Rogers, of Concord, N. H., for taxes paid by him to the city of Concord for the year 1909, said assessment having been illegal by reason of his being a veteran. The amount hereby appropriated shall be charged to the account of incidentals and land damages.

Passed, December 30, 1909.

A JOINT RESOLUTION APPROPRIATING TWO AND SIXTY-SIX ONE-HUNDREDTHS DOLLARS (\$2.66) TO REIMBURSE CARL ALFRED ANDERSON FOR TAXES ERRONEOUSLY ASSESSED.

Resolved by the City Council of the City of Concord, as follows:

That the sum of two and 66-100 dollars (\$2.66) be, and the same is hereby, appropriated to reimburse Carl Alfred Anderson for taxes paid by him to the city of Concord for the year 1909, the same having been erroneously assessed. The amount hereby appropriated shall be charged to the account of incidentals and land damages.

Passed, January 10, 1910.

A JOINT RESOLUTION ASKING FOR SEALED PROPOSALS FOR PRINTING AND BINDING THE ANNUAL CITY REPORTS.

Resolved by the City Council of the City of Concord, as follows:

That the city clerk be, and hereby is, instructed to ask for sealed proposals for printing and binding the city reports for the year

1909, and submit the same to the finance committee, who shall have full power to act in the matter.

Passed, January 10, 1909.

A JOINT RESOLUTION APPROPRIATING MONEY FOR DEFICIENCIES
IN THE SEVERAL DEPARTMENTS.

Resolved by the City Council of the City of Concord, as follows:

SECTION 1. That the sum of eight thousand six hundred and thirty-five and 75-100 dollars (\$8,635.75) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated, to pay outstanding claims as follows:

SANITARY OFFICER AND INSPECTOR OF PLUMBING.

Elected biennially in January by City Council. Salary, \$1,400 per annum.

CHARLES E. PALMER.

Office : City Hall.

REGISTRAR OF VITAL STATISTICS.

The City Clerk is made Registrar by General Laws. Fees, 15 cents for each birth, marriage and death received, recorded and returned to the State Registrar.

HENRY E. CHAMBERLIN.

Office : City Hall.

BOARD OF HYDRANT COMMISSIONERS.

No salary.

WILL B. HOWE,

City Engineer:

WILLIAM C. GREEN,

Chief of the Fire Department.

PERCY R. SANDERS,

Supt. of the Water-works.

PARK COMMISSIONERS.

Two appointed annually in January, for three years, by Board of Mayor and Aldermen. No salary.

CHARLES J. FRENCH, Mayor, *ex-officio*.

SUPERINTENDENT BLOSSOM HILL AND OLD NORTH CEMETERIES.

EDWARD A. MOULTON.

UNDERTAKERS.

Elected biennially in January by City Council. Salary, none.

FOR OLD NORTH AND BLOSSOM HILL CEMETERIES.

GEORGE W. WATERS.
 LOUIS A. LANE,
 HAMILTON A. KENDALL,
 CARL H. FOSTER,
 HIRAM G. KILKENNY,
 WILLIAM H. HOYT,
 MILO H. SNELL.

FOR WOODLAWN CEMETERY, PENACOOK.

J. FRANK HASTINGS,
 OLIVER J. FIFIELD.

FOR EAST CONCORD CEMETERY.

SCOTT FRENCH.

CITY OF CONCORD.

FOR WEST CONCORD CEMETERY.

LEWIS S. PARMENTER.

FOR MILLVILLE CEMETERY.

FRANK G. PROCTOR.

FOR SOUCCOOK CEMETERY.

NAHUM PRESCOTT.

INSPECTOR OF PETROLEUM.

Appointed annually in January by Board of Mayor and Aldermen. Fees, one-fourth cent per gallon for inspection, paid by owner of oil.

CLARENCE I. TEBBETTS.

FENCE VIEWERS.

Elected annually in January by City Council. Fees, \$2 per day, paid by parties interested.

GEORGE W. CHESLEY,
CHARLES P. ROWELL,
GILES WHEELER.

POUND KEEPER.

Elected annually in January by City Council. Fees, two cents each for impounding sheep, and five cents each for all other creatures, paid by owners.

GEORGE PARTRIDGE.

SEALERS OF LEATHER.

Elected annually in January by City Council. Fees, reasonable price, paid by person employing.

JOHN C. THORNE,
FRED S. JOHNSON,
FRANK E. GALE.

SEALER OF WEIGHTS AND MEASURES.

Elected annually in January by City Council. Fees, for sealing each scale beam, steelyard, or scale, 25 cents, and for each measure, 10 cents; five or more to one person, half price—paid by owners of scales or measures.

EDWARD K. GOVE.

Office: Rear of Police Station.

CULLER OF STAVES.

Elected biennially in January by City Council. Fees, bbl. staves, 28 cents; hhd. staves, 34 cents; pipe staves, 40 cents; butt staves, 45 cents; hoop, 50 cents; heading, 33 cents per M.—paid by party for whom culling is done.

GEORGE F. HAYWARD.

WEIGHERS OF HAY, COAL, ETC.

Elected annually in January by City Council. Fees, reasonable price per load, paid by party requiring service.

DEPARTMENT REPORTS.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

To the City Council of Concord, N. H.:

The annual report of the librarian of the public library for the past year is herewith submitted; and the trustees do not deem it expedient to attempt to supplement her comprehensive statement of the year's work or to make additional suggestions for the future. Though the library, under present conditions, cannot extend the field of its usefulness, it is safe to say that it will not retrograde.

The usual appropriation of \$5,000 is desired.

R. E. WALKER,
President, Board of Trustees.

REPORT OF THE LIBRARIAN FOR 1909.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN:—Following the order that librarians are adopting as the best in which to present the material of their annual reports, I will begin with facts.

The number of books charged at the loan-desk during the past twelve months was 93,161, a higher figure than usual, though 3,577 short of that of last year. The wonder is that our loss in circulation is not greater. For with countless persons spending their leisure and eyesight at the shows which have multiplied, with scores of people stopping their automobiles at the library only long enough to step in and get a book renewed, with the increasing devotion to cards, and with hundreds losing the reading habit because of the multiplying activities of their lives, with banks subscribing for monetary magazines for their clerks, mills taking textile journals for their operatives, railroads providing reading rooms and reading matter for their hands, and every corporation trying thus to raise the efficiency of its employees, it will have to be accepted by librarians, with as good a grace as they can muster, that their business is up against the competitive spirit of the age.

Libraries are as invaluable to a community as ever—nay, *more necessary*; for the want is felt nowadays not for a slow but sure way of accomplishing one's ends; a *fast* but sure way is desired; tools must be at hand; information must be got at once. No deliberate, untrained search through printed matter will put quickly enough at a man's command the fact or the theory or the sentiment which

will help him to achieve. A modern public library is needed, where by catalogs and indexes, the books stand harnessed ready to dash out to do saving service.

Yet though a town library is thus increasingly important, as men's minds send out more and more hurry calls, its books are now only one of many, many diversions to its citizens. Fifteen years ago an almost overwhelming throng came in on the eve of holidays and Sundays to get a story for their entertainment over the morrow. It is not so now; and I would welcome the old fatigue of Saturday nights, to see the old rush of business.

It was with a feeling of understanding and sympathy that we heard the attendance at the Evening School was not, this winter, quite what it has been heretofore. The temper of the populace is ever, "The show is dead! Long live the show!"

But in spite of the dropping away of many of the old customers who either read less or go elsewhere to get the six best-sellers, our circulation keeps at this very large figure, preëminently big in the state. Is not the inference just that our grand total comes not from the old idle reading of people who, when they left their doors, started for the library to kill time, but from the more flattering call of persons who, in spite of other demands on their time and attention, will yet insist on having a book to please or instruct?

An up-to-date public library is needed also because current educational methods send pupils constantly to get information from it. You and I learned one text-book on a subject; the present-day child is required to hunt up references in a dozen books weekly or to ascertain facts not in the volumes of his home or school library. If public libraries were done away with, the modern system of education would have to be revolutionized.

If the thought comes that a library could run its circulation up to startling figures by the purchase of a set of

blood-curdling juveniles or of the questionable books which may be found more justifiably in libraries not supported out of the city treasury, of course the idea is dismissed as unworthy, and irrelevant to the real good done by the institution. We have no quarrel with the progress of the times as reflected in our altered though undiminished trade, and only want to call attention to the changed conditions under which a public library does its work.

The number of new borrowers during 1909 was 703, rather more than the average gain.

In 1909 we bought 1,100 volumes, of which

- 493 were new publications;
- 408 were fresh copies of old favorites;
- 75 were desired duplicates;
- 124 came from the binding of magazines.

Our principle in buying continues the same, *i. e.*, to purchase especially works bearing on the topics at the moment quickening Concord and yet not to buy for one set of people to the deprivation of others. Every noteworthy publication of moderate cost is considered for purchase whether it deal with Rubens or radium, comets or customs; for the library must be prepared with material for the coming or the recurrent interest in town. At present subjects like agriculture and electricity are forging ahead while art and literature drop behind. With the interest on the P. B. Cogswell fund we have completed the valuable set of the New England Historical and Genealogical Register.

Departmental club work having subsided, there is a lessened demand for data for papers and addresses. The boys' debating club at the High School seems to be flourishing and its participants learn how to get help from a public library, a lesson which ought to stand them in good stead all their lives.

Last winter we published in both local newspapers lists on the following themes:

- Home and its interests;
- Travel and biography;
- Machinery, electricity, etc.;
- Conduct of life;
- Sociological and municipal questions;
- Out-of-door matters.

As the books mentioned were recent and vital, it was disappointing that our calling attention to them did not secure new patrons, especially men, for the library.

The suburban summer branch and the vacation story-hour now alternate as objects of our care, and the past July and August it was the turn of the story-hour to absorb the librarian's energy. Whenever the daily papers announce that these readings are to be given for the children, it is to be hoped that every seat will be filled on the first as well as on the last afternoon; for just as the little boys and girls get to attending in gratifying numbers, our innocent entertainment is cut off by school's opening, and then the children wish they had heard the stories from the first, and the librarian wishes so, too, for they behave beautifully and listen eloquently.

The vacation-book privilege meets with increasing appreciation.

It ought to be more generally known that we have a card index for the annual reports of the Smithsonian Institution, thus making available their complete résumé of research, discovery and invention. We have also a card catalog for the Old South Leaflets which contain rare imprints. We have bought the New International Dictionary and the supplementary volumes of the Century.

Of the hundred or more picture-exhibits we have offered to the public, perhaps the one most appropriate to a library's hall is the present display illustrating the art

of book-making, and showing by 1,000 specimens the paper and binding materials, the typographic features, and the decoration of printed books.

Though the year has been one of ordinary routine at our library, it has been a memorable one in the library annals of New Hampshire, for the national conference was held for a second time, but after an interval of twenty years, in our White Mountains. The unanimous opinion of the eight hundred in attendance was that the American Library Association never made so satisfactory a choice of locality and headquarters as the Mt. Washington at Bretton Woods proved to be. Our own state association held an unusually successful meeting last autumn in Franklin.

My assistants continue to do the effective team work which comes of long service together, and join with me in the regret that new avenues of usefulness do not seem opening before us. Nineteen hundred and nine will, to our staff, be known as the year of the Christmas Tree, into which we transformed our rubber-plant; and I think that as a basis of our merriment on that occasion we all shared the grateful conviction that we have been fortunate and happy in our daily work.

Respectfully submitted,

GRACE BLANCHARD,

Librarian.

HEALTH DEPARTMENT.

BOARD OF HEALTH REPORT.

To the City Council:

We have the honor to submit the following report for the year ending December 31, 1909.

The board was organized March 10, 1909, as follows: Mayor Charles J. French, *ex-officio*, chairman; Dr. Charles H. Cook, secretary, and Dr. Fred A. Sprague, member.

Regular monthly meetings have been held and many matters of a routine nature have been disposed of at these meetings.

At the March meeting, Dr. Charles Duncan, whose work as milk inspector for the previous year had proven so productive of good results, was re-appointed for a term of two years.

During the fall of 1909 we were confronted with an epidemic of diphtheria among the children in our public schools. At no time did the outbreak assume alarming proportions nor was it found necessary to close the schools except in a single instance when one room was closed for a period of two weeks.

Early in the course of the epidemic it was realized by this board that a very likely means of spreading the contagion existed in the custom of distributing pencils, scissors, books and other school room requisites to be used for an hour or so by a pupil, such articles afterward being collected into a common pile and subsequently re-distributed at random among the pupils. Accordingly Superintendent Rundlett was requested to see that the practice was discontinued.

Every means possible was used to check the spread of the disease including hundreds of bacteriological examinations of the throats of children in the rooms where cases appeared. By this means quite a number of cases were detected that would not have been suspected from other signs. Children absent on account of sickness of any description, if unattended by a physician, were thoroughly examined before being permitted to return to school.

The following new and more stringent regulations concerning diphtheria were adopted by the board of health and approved by the Board of Mayor and Aldermen October 11, 1909:

“The period of quarantine in any case of diphtheria shall not be less than two weeks. In qualifying for discharge from quarantine a patient must be fully convalescent and free from sore throat and discharge from throat, nose, eyes, or ears; and microscopic examination of cultures made from swabs taken on two successive days from patient’s throat or nose or both, must fail to show the diphtheritic bacillus. Swabs taken for the purpose of complying with this regulation must not be taken until at least four hours have elapsed since using an antiseptic in the throat or nose.

“Finally, before quarantine restrictions can be removed, swabs from the throats of all children in the family and the mother or other nurse having care of patient must have been submitted for examination and have failed to show the presence of diphtheria bacillus. School children who have been exposed to diphtheria or who live in a family where the disease exists must be excluded from school for a period of two weeks following the last exposure.

“School children who have had the disease and been released from quarantine must be excluded from school for a period of two weeks following such release.

“All parts of the regulations conflicting with above shall be null and void.”

Fumigation was used when it was thought it would serve a useful purpose, but it was thought that early recognition and isolation of the cases together with free and early use of antitoxin offered the surest means of limiting the spread of the dread disease.

In the report of the sanitary officer, which is hereby transmitted, you will find a detailed account of the epidemic as well as many other facts concerning the work of the board. The milk inspector's report is hereby transmitted.

The vexed question of vaccination of school children is always with us. We find that, comparatively speaking, there is very little opposition to the law which requires all school children to be vaccinated and we are glad to be able to say that there are very few cities that can show a larger proportion of children conforming to the requirements in this respect.

In conclusion we wish to thank the City Council and the Sanitary Officer for their coöperation in our plans looking to the betterment of the city's health.

Respectfully submitted,

CHARES J. FRENCH, MAYOR,
CHARLES H. COOK, M. D.,
F. A. SPRAGUE, M. D.,

Board of Health.

REPORT OF MILK INSPECTOR.

To the Board of Health:

GENTLEMEN:—The examinations made by the milk inspector appear in another part of the health department report. The examinations show a considerable improvement in the cleanliness of the milk, but there is still much that ought to be done.

That a larger number of farms have not been examined is due to stress of work during the measles and diphtheria epidemics, as is explained in the general report of the department. It is hoped that the work of farm inspection may be taken up immediately the coming year, so that ground gained by previous inspection may not be lost, and also that such farms as have improved conditions, by building milk rooms, improving stables and buying equipment, may receive the credit due them in the reports at the office.

The benefits from individual talks to the milkmen have come through their purchase of such utensils as aid to the production of a clean milk. The hardest task is to stimulate the man with the poorest outfit and make him believe that he may, by extra care, do better, and to have the man with the very best of an equipment realize that carelessness may easily impair its whole value.

We have men with the poor equipment furnishing a very clean milk. We have men with the very best equipment whose milk I find occasionally dirty. The fault in the latter case is usually blamed to the help and better things are promised when attention is called to conditions.

The milk that the more careful men supply the trade is of excellent quality. It has a food value for the baby or sick far in excess of the seven cents charged and such a milk in the larger cities is willingly bought for twelve and fifteen cents. It may now be said that in Concord no

physician or others need feed baby or sick any but a clean milk for there are men who supply it daily as the records of the health department show.

It is a generally accepted opinion among scientists that people, especially children, may become infected with milk from tubercular cattle. It is also accepted that the best means for diagnosis of tuberculosis in cattle, that to all appearances are healthy, is by means of tuberculin.

In the light of these facts and the fact that in many cities the tubercle bacillus has been found in the milk supply to as great an amount as eleven per cent., I have begun an examination of the milk of our city to determine if there are any herds that supply such a milk.

The test is by means of animal inoculation and positive findings would warrant the demand of a tuberculin test of the herd supplying the milk, the tuberculin test in this city now not being among the farmers a matter of routine procedure, as I think it should be. It is hoped that a great deal more may be said about this work in another report.

The investigation of the public of the work done by this department is appreciated and it is hoped that records will continue to be consulted and questioned about. We believe that inspection is cheaper than infection and that that spirit of inspection should be the part of every good citizen.

Submitted by,

CHARLES DUNCAN,

Milk Inspector.

REPORT OF SANITARY OFFICER.

To the Board of Health:

GENTLEMEN:—I herewith submit my annual report as sanitary officer, giving a summary of the work of this department for the year ending December 31, 1909. The year has been one of the busiest in the history of the department in nearly every line of work.

MORTALITY.

There were 480 deaths during the year, compared with 428 deaths in 1908. The number of deaths in the different wards of the city were 306 and in public institutions, 174. Estimating the population at 20,000 this gives a total death rate of 16.1 against 15.25 in 1908. There were 99 bodies brought to this city from other places for interment and transit permits were issued for the removal of 184 bodies for interment out of town.

CONTAGIOUS DISEASES.

The total number of cases of contagious diseases reported during the year was 1,350, with 11 deaths. This number was very much larger than in previous years and necessitated a large amount of extra work. There were 2,352 visits made to contagious disease cases and 763 houses were placarded.

There were 131 cases of diphtheria reported, with 6 deaths, the largest number ever reported in one year. Ninety of these cases were reported after the opening of the schools in September, but at that time the disease was prevalent throughout the state. Medical inspections were made and cultures taken from the throats of all pupils in the school rooms where pupils reported as having the disease had attended, and a number of very mild and unrecognized cases of the disease were discovered, in this way tracing the source of a large per cent. of our cases. The Board of Health continued to provide free antitoxin to

those who were unable to purchase it for themselves, and as a large number were indigent cases the expense for this important factor in the treatment of diphtheria was larger than usual.

During the year there were reported 23 cases of scarlet fever but fortunately with no deaths, the disease in nearly every case being apparently mild in type. The outbreak of several cases at about the same time brought about the investigation of the milk supply and two unrecognized cases of scarlet fever were found in the family of the milk dealer who had supplied these families with milk and which was probably the source of the infection.

There were 28 cases of typhoid fever reported, with 4 deaths. Eight of these cases were brought to the hospital from out of town for treatment and several other cases were traceable to sources outside the city.

There were reported 1,168 cases of measles, with but 1 death. An epidemic in the spring and early summer made this the largest number of cases ever recorded in this city in one year.

FUMIGATION.

The expense for fumigation supplies, \$130.63, was somewhat greater than in former years, owing to the large amount of fumigation done. At the close of the school year in June all the school books in Union School District were fumigated. The formaldehyde-potassium permanganate method was used as in former years, with good results.

EXPENDITURES OF THE BOARD OF HEALTH OF THE CITY OF CONCORD FOR THE YEAR ENDING DECEMBER 31, 1909.

SALARIES.

Charles E. Palmer, sanitary officer, salary,	\$1,400.00
Charles Duncan, M. D., milk inspector, salary,	300.00

FUMIGATION SUPPLIES.

A. Perley Fitch, formaldehyde and permanganate,	\$65.70
A. H. Knowlton & Co., formaldehyde and permanganate,	28.20
C. H. Martin Co., permanganate,	15.78
West Disinfecting Co., formaldehyde,	15.00

NUISANCES, COMPLAINTS AND INSPECTIONS.

A statement of the number and character of the nuisances which have been abated by this department during the year, appears below:

Catch-basin traps broken,	6
Collecting garbage without a license,	1
Dead animals,	38
Decayed fruit,	2
Decayed meat and fish,	1
Defective plumbing,	2
Drinking water questionable,	7
Dumping rubbish,	20
Expectorating on sidewalks,	4
Filthy premises,	17
Keeping hens,	8
Keeping hogs,	11
Man doing plumbing without license,	1
Milkmen notified to comply with ordinance,	8
Odor from cesspools,	4
Odor from dumps,	5
Odor from fish markets,	2
Odor from garbage cans,	4
Odor from manure heaps,	8
Odor from privy vaults,	10
Odor from stables,	9
Odor in houses,	16
Odor in offices,	3
Other nuisances,	15
Pediculosis,	3
Plumbers doing work in violation of law,	1
Sewers obstructed,	3
Sinks with imperfect drainage,	1
Suspected contagious diseases,	1
Throwing out ashes,	2
Throwing out slops,	6

Throwing out swill,	8
Washing ice at watering trough,	1
Water-closets foul and offensive,	11
Water-closets out of repair,	7
Water-closets without local vents,	2
Water-closets without water supply,	3
Water in cellars,	3
	<hr/>
Total,	254

INSPECTION OF PLUMBING.

The number of inspections will be found in the table herewith annexed:

Plumbing permits granted,	109
Water-closets put in,	151
Sinks put in,	69
Bath-tubs put in,	85
Wash-bowls put in,	102
Wash-trays put in,	22
Slop-sinks put in,	1
Urinals put in,	5
Carriage wash put in,	1
Number of sewers inspected,	34
	<hr/>
Total number of inspections of plumbing,	218

FUMIGATION.

Rooms fumigated,	776
Schoolrooms fumigated,	42
Cellars fumigated,	17
Closets fumigated,	9
Wards at hospitals fumigated,	13
Cars fumigated,	1
Cells at police station fumigated,	24
Fire towers fumigated,	1
Tombs fumigated,	1

Books fumigated,	98
Pieces of clothing, etc., fumigated,	167
Pieces of bedding burned,	15

REPORT OF INSPECTION OF MILK FARMS AND MILK
EXAMINATIONS.

Number of milk farms visited,	16
Conditions good,	2
Conditions fair,	3
Conditions poor,	8
Conditions not scored,	3
Improvements suggested,	13
Improvements carried out,	3
Warning notices sent ordering compliance with state law and city milk ordinance,	2
Number of milk examinations made,	182
Examinations above standard,	176
Examinations below standard,	6
Notices given that milk was below standard,	5
Prosecutions,	1

SUMMARY.

Houses placarded in cases of contagious diseases,	763
Placards removed,	763
Visits made to contagious diseases,	2,352
Burial permits issued,	480
Burial permits issued to non-residents,	99
Transit permits issued,	184
Garbage licenses issued,	58
Milk licenses issued,	184
Milk license fees received,	\$178
Number of reports of contagious diseases sent to the state board of health,	52
Number of reports of contagious diseases sent to the surgeon-general public health and marine- hospital service,	45

Number of mortuary reports issued,	1,065
Number of vaccination certificates issued for children to attend school.	1,019
Number of permits issued for children to return to school after recovery from contagious diseases,	450
Number of samples of water collected for analysis,	9
Number of collections of food for analysis,	1
Number of inspections of barber shops,	5

In closing this report I wish to thank his honor the mayor and the other members of the board of health and also the city council for their coöperation in matters relating to this department.

Respectfully submitted,

CHARLES E. PALMER,
Sanitary Officer.

- Box 12. Penacook.
- Box 13. Washington and Union Streets.
- Box 14. South, near Thompson Street.
- Box 15. South and Downing Streets.
- Box 16. White Park.

RECOMMENDATIONS.

I recommend for your consideration the appointment of one more patrolman, it being apparent to me that there is a large territory bounded by Pleasant, State, Center and Liberty streets that should be policed.

I also recommend for your serious consideration the building of a suitable stable for our horse, patrol wagon and ambulance. We have a great many hurry-up calls in our business, and if we could have our horse and wagons in close proximity to our station, it would be of great advantage to our department and the public as well.

CONCLUSION.

I desire to express my thanks to the honorable mayor and city council for their kindness and support, also to the board of police commissioners, judge of the police court, and City Solicitor Edmund S. Cook, for their kind and courteous treatment. I also thank all the members of this department for their attention to business and their willingness to assist at any and all times.

Respectfully submitted,
 GEORGE A. S. KIMBALL,
City Marshal.

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

To the Honorable Mayor and City Council:

I herewith submit for your consideration the following report of the Fire Department for the year 1909:

The department responded to 55 bell alarms and 145 still alarms.

In addition one fire occurred at Penacook for which no alarm was given.

	Bell.	Still.	No Alarm.	Total.
Precinct,	36	120		156
Penacook,	7	16	1	24
East Concord,	4	6		10
West Concord,	8	3		11
	<hr/> 55	<hr/> 145	<hr/> 1	<hr/> 201

This report will be found to contain statements in detail embracing the amount of expenditures, a complete roll of the department, with residence and occupation of each member, a record of all fires and alarms which have occurred during the year and the causes thereof, as nearly as could be ascertained, with the names of the owners or occupants and the value, loss, insurance and insurance recovered in each case.

Nothing of moment occurred during the year, the department having responded to a smaller number of alarms than has been the case since the year 1902, while but two fires occurred which could be classed other than ordinary.

The apparatus is in good condition. One third-class Metropolitan engine was purchased and placed in commission at Penacook, taking the place of the Silsby engine, purchased in 1882. The chemical engine was repaired, painted and var-

nished, and minor repairs have been made upon all other apparatus as occasion required.

Five hundred feet of hose and three horses were purchased, three horses owned by the city being traded in part payment for the new.

I would respectfully recommend the purchase of five hundred feet of hose during the coming year.

The fire alarm telegraph system is in good condition.

All necessary repairs have been conducted in a thorough manner.

The Penacook fire alarm telegraph system is also in good condition, as will be seen by reference to the report of Supt. Fred M. Dodge. Two boxes were added to the system during the year, and the installation of two more during the coming year has been recommended, the expense of the same being included in the estimates recently submitted by the undersigned.

If the addition of two boxes each year for a short time, and but a short time will be necessary, can be accomplished, this district will soon possess a fire alarm telegraph system which can but be satisfactory to the most exacting.

As Inspector of Wires I would respectfully report that the relations existing between all electric companies doing business in the city and this office could not be more harmonious.

The first suggestion of change has yet to followed by order, and all seem to be actuated by a desire to have things as they should be for the convenience and safety of the public.

Respectfully submitted,

WILLIAM C. GREEN,

Chief Engineer.

FIRE-ALARM TELEGRAPH.

NUMBER, LOCATION, ETC.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into five districts, viz.:

DISTRICT 1. Embraces that section of the city north and west of Washington Street, box 17 of this division being located on the south side of the street.

DISTRICT 2. Embraces all between School and Washington Streets.

DISTRICT 3. Embraces all between Pleasant and School Streets.

DISTRICTS 4, 5 AND 6. Embrace all South of Pleasant Street.

The first figure of the box number will indicate the district.

DISTRICT No. 1.

- 9. New Hampshire State Prison.
- 12. Curtice Avenue.
- 13. Franklin and Rumford.
- 14. Bradley and Walker.
- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose House.
- 18. C. S. Gale's Store.
- 19. Centre and Auburn.

DISTRICT No. 2.

- 21. State, opposite Court.
- 23. Main and Chapel.
- 24. Main and Centre.
- 25. Main and School.
- 26. Centre and Union.
- 27. School and Merrimack.
- 28. School and Spring.
- 29. Centre and Essex.

DISTRICT No. 3.

- 32. Warren and Pine.
- 34. Central Fire Station.
- 35. Martin's Drug Store.
- 36. Pleasant and Spring.
- 37. Pleasant and North Fruit.
- 38. Orchard and Merrimack.

DISTRICT No. 4.

- 41. South and Thompson.
- 42. Good Will Hose House.
- 43. Main and Fayette.
- 45. Nelson & Durrell's Store.
- 46. Perley and Grove.
- 47. South, opposite Downing.
- 48. Thorndike and South.
- 49. West and Mills.
- 412. Wall and Elm.
- 413. Main, opposite Thorndike.
- 414. State and West.

DISTRICT No. 5.

- 51. Boston & Maine Railroad, new shops.
- 52. South Main and Allison.
- 53. Hall and Hammond.
- 54. Broadway and Pillsbury.
- 56. St. Paul's School.
- 57. Pleasant View.
- 521. Broadway and Rockingham.
- 522. South Main and Holly.

DISTRICT No. 6.

- 62. South Main, opposite Holt Bros.

PRIVATE BOXES.

- 5. Boston & Maine Railroad—north end passenger depot.
- 6. The Abbot-Downing Company.

7. New Hampshire State Hospital.
8. Page Belting Company.
9. Three boxes inside New Hampshire State Prison.
33. State House.
55. Boston & Maine Railroad, old repair shops.

FIRE-ALARM SIGNALS.

Alarms rung in from boxes 41, 42, 43, 45, 46, 47, 48, 49, 412, 413, 414, 51, 52, 53, 54, 55, 56, 57, 62, 521 and 522, will not be responded to by the Alert Hose Company until signaled. The signal to proceed to the fire will be four blows or second alarm, excepting alarms rung in from box 56.

Alarms rung in from boxes 8, 9, 12, 13, 14, 15, 16, 17, 18, 19, 21, 23, 26, 27, 29, 32, 37, 56 and 57 will not be responded to by the Good Will Hose Company until signaled. It will be governed by the same signals governing Alert Hose Company. The Alert Hose and Good Will Hose Companies will hitch up and remain in readiness 20 minutes after the first alarm, to all boxes not responded to on first alarm. Then, receiving no signal, the officers in charge shall dismiss their companies.

Alarms rung in from boxes 12, 37, 53, 54, 57 and 521 will not be responded to by the Kearsarge Company on first alarm.

The signal to proceed to the fire will be two blows, four blows, or second alarm, as circumstances may warrant.

Kearsarge Steamer to all calls except 51.

Eagle Hose Company to all calls.

Eagle Steamer to box 6, on first alarm; to boxes 23, 24, 25, 33, 34, 35, 42, 43, 45 and 413, on second; to all others on third, except 9 and 56.

Governor Hill Steamer will respond to boxes 7, 8 and 9 on first alarm; to boxes 5, 6, 12, 13, 14, 15, 16, 17, 18, 19, 21, 26, 27, 28, 29, 32, 36, 37, 38, 41, 46, 47, 48, 49, 412, 414, 52, 54, 55, 57, 62, 521 and 522, on second; to all others on third.

Chemical Engine will respond to all box alarms except 8, 9, 51, 56, 57 and 521.

Veterans' Auxiliary Company will respond to all third alarms occurring before the recall, whether emanating from same box or not.

Two rounds of 11 strokes each will signalize the requirement of assistance out of town, and will be responded to by a detail of three men from each company, appointed for the purpose, and by those alone.

Two additional blows will indicate that the call for assistance emanates from East Concord. Such apparatus will be detailed as circumstances warrant. In case further aid is necessary, box 34 (Central Station) will follow.

All-out signal, three strokes of the bell.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each will be sounded on the bells, and will be responded to by a detail of four men from each company, appointed for the purpose, and by those alone.

MILITARY SIGNAL.

Two rounds of 3-1-2.

CONCORD STATE FAIR GROUNDS.

Two rounds of 5-1-2.

To be responded to by Good Will Company and apparatus, Eagle Company excepting engineer and stoker, Eagle wagon, Kearsarge Engine, engineer and stoker, and Hook and Ladder Company.

All apparatus excepting Kearsarge Engine to return immediately to quarters with detail sufficiently large to reload and work apparatus should occasion require.

Companies not responding to remain in quarters until recall is sounded, in readiness to respond to summons by telephone.

SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of 15 seconds between the rounds.

The signal to close for the forenoon session will be given at 8 o'clock a. m.

The signal to close for the afternoon session will be given at 1 o'clock p. m.

The signal to close all schools for one session will be given at 11.30 a. m.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4.30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week day a single blow upon the bells will be rung in from a box, alternating as before mentioned.

THE FIRE-ALARM TELEGRAPH

is the "Gamewell" patent. It embraces 40 miles of wire.

On the lines are 43 fire-alarm boxes belonging to the city, and nine private boxes—in all, 52. There are three alarm bells, one of 3,724 pounds (bell metal), one of 3,740 pounds (bell metal), and one of 2,000 pounds (American steel). There are also 16 mechanical tappers, 40 direct action tappers, one four-circuit repeater, and six indicators.

The battery consists of 244 storage battery cells for the lines, and 46 open-circuit battery cells for other electrical purposes.

The alarm system was installed in 1880 by the Gamewell Fire-Alarm Telegraph Company.

DIRECTIONS FOR GIVING AN ALARM.

Above all things, keep cool.

To obtain the key to the box, break the glass in the key box located beneath the alarm box.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted the instant you open the door.

Open the box, and if this bell is not heard, pull down the hook once only and let go.

But if this bell should be heard, it would indicate that another box had been pulled, and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Wait until 20 seconds have elapsed after the "tell-tale" has stopped ringing, close the door, which will restore the armature to the position it left when the door was opened.

Open the door, pull down the hook once only and let go.

Should there be no response, pull it again.

Then should there be no response, go to the next box.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

PENACOOK FIRE-ALARM TELEGRAPH.

NUMBER, LOCATION, ETC.

W. C. Green, Chief Engineer:

I herewith submit for your consideration the following report of the Penacook fire-alarm telegraph system:

The system is the Gamewell patent, and consists of four miles of number nine iron wire.

On the lines are eight boxes owned by the city, two private boxes, one 1,500-pound bell, one indicator, two mechanical gongs and four direct-action tappers. The battery consists of 36 storage battery cells.

Two new boxes have been added this year. Number 31 located on Elm Street, and Number 41 located at the corner of Center and East Canal Streets.

I would respectfully recommend the addition to the system of two boxes during the coming year, and a whistle blowing attachment also, as the territory covered does not admit of the hearing of the bell at all times.

Respectfully submitted,

FRED M. DODGE,
Superintendent of Fire Alarm.

LOCATION OF BOXES.

- 31 Elm Street, near S. N. Brown's house.
- 35 Washington Square.
- 37 Washington Street near outlet.
- 39 South Main Street, near cemetery.
- 41 Corner of Center and East Canal Streets.
- 42 High Street, opposite Maple Street.
- 45 Summer Street, opposite Church Street.
- 47 Merrimack Street, opposite hose house.

PRIVATE BOXES.

- 25 Hoyt Electrical Instrument Works.
- 62 Concord Axle Works.

ALL-OUT SIGNAL.

Three strokes of the bell.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each.

OUT OF TOWN SIGNAL.

Two rounds of eleven strokes each.

FOR FIRE ON BOSCAWEN SIDE.

Box 35, with two additional strokes.

SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of 15 seconds between the rounds.

The signal to close all schools for the forenoon session will be given at 7.30 a. m.

The signal to close for the forenoon session at the Charles Street building will be given at 8.00 a. m.

The signal to close all schools for the afternoon session will be given at 12.15 p. m.

The signal to close for the afternoon session at the Charles Street building will be given at 12.45 p. m.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Saturday afternoon at 12.50 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be rung in from a box, alternating as before mentioned.

DIRECTIONS FOR GIVING AN ALARM.

To open the box, break the glass and turn the key.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted the instant you open the door.

Open the box, and if this bell is not heard, pull down the hook the whole length of the slot, once only, and let go.

But if this bell should be heard, it would indicate that another box had been pulled, and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

The Penacook fire-alarm system was installed in June, 1908, under direction of the chief engineer.

REGULATIONS OF CONCORD FIRE DEPARTMENT.

SECTION 1. The fire department shall consist of a chief engineer, two assistants within the precinct, one engineer each from Ward 1, Ward 2 and Ward 3; two steamer and hose companies, one company to consist of thirteen men, including driver, and one company to consist of fourteen men, including drivers; one relief steamer [company] to consist of two men; two hose companies to consist of eleven men, including driver; a chemical engine company to consist of two men; a hook and ladder company to consist of twenty-one men, including driver; a house man at Central Fire Station; steamer Pioneer, not less than twenty or more than forty men; hand engine companies No. 2 and No. 3, not less than twenty or more than thirty men each. The engineers shall exercise the powers of fire wards, and those within the precinct shall constitute the board of engineers.

SECT. 2. The chief engineer and assistant engineers and all other members of the fire department shall hold their respective offices and places until they are removed, or their offices or places are otherwise vacated. The board of mayor and aldermen, for cause, and after a due hearing, may at any time remove from office or place the chief engineer, or any assistant engineer, or any officer or member of the department. In case of vacancies from any cause in the department, of officers or men connected in any manner with the fire service, such vacancies shall be filled by the board of mayor and aldermen.

SECT. 3. The chief engineer shall give his entire time to the duties of his office, and shall not engage in or be connected with any other business or occupation, and shall reside in a house to be furnished by the city free from rent. He shall receive in full for his services, in addition to

the use of said house, rent free, the sum of twelve hundred and fifty dollars per annum.

SECT. 4. The chief engineer shall have the sole command at fires over all persons, whether members of the fire department or not. He shall direct all proper measures for extinguishing fires, protecting property, preserving order and enforcing the laws, ordinances, and regulations respecting fires; and shall examine into the condition of the fire engines and all other fire apparatus, and of the fire engine houses and other houses belonging to the city and used by the department, and by the companies thereto attached, as often as once a week, and whenever directed to do so by the mayor, or the committee on fire department through its chairman. He shall certify all bills and submit the same for inspection monthly to the joint standing committee on fire department. He shall report to the city council annually a statement of the receipts and expenditures of the fire department, the condition of the fire engines and all other fire apparatus, a detailed schedule of the property in his charge, the names of the officers and members, and all other facts in relation to the department. Whenever the fire engines or other fire apparatus require repairs he shall, under the direction of the committee on fire department, cause the same to be made, and as far as practicable he shall examine into the location and condition of fire apparatus belonging to corporations or private individuals within the limits of the city. He shall require permanent men, when not otherwise engaged, to perform such other duties and do such other work as in his judgment may be deemed proper. He shall be responsible for the proper care of all property connected with the fire department. He shall keep fair and exact rolls of the respective companies, specifying the time of admission and discharge, and the age of each member, and shall report annually, or oftener if directed, all accidents by fire which may happen within the city, with the causes thereof, the number and description of the buildings destroyed or injured, and the amount of loss and insurance on the same, together with the names of owners or the occupants, and shall make returns as required by the Laws of

1889, chapter 84, and entitled: "An act in relation to returns and statistics of fires." He shall visit each department house as often as practicable, and inspect the men, the books of the house, and see that the quarters are properly conducted and in good order. He shall have the power to suspend any officer or member of the department for insubordination, disorderly conduct or neglect of duty, said suspension to continue pending the action of the mayor and aldermen. The chief engineer shall examine all places where shavings and other combustible materials may be collected or deposited, and cause the same to be removed by the tenants or occupants of such places, or at their expense, whenever in his opinion such removal is necessary for the security of the city against fires.

SECT. 5. In the absence of the chief engineer, the next assistant engineer in rank, who may be present, shall have the powers and perform the duties of the chief engineer and the seniority in rank of the engineers shall be determined by the board of engineers at their first meeting.

SECT. 6. The foreman of each engine, hose, and hook and ladder company, immediately after every fire at which said company may have attended, shall examine into the condition of the fire apparatus belonging to his respective company, and report any deficiency which may exist to the chief engineer. He shall keep, or cause to be kept by the clerk of his company, exact rolls, specifying the time of admission, discharge, and age of each member, and accounts of all city property entrusted to the care of the several members, and of all cases of absence and tardiness, in a book provided for that purpose by the city, which rolls and record books are always to be subject to the order of the chief engineer and mayor. They shall also make, or cause to be made, to the chief engineer, true and accurate returns of all members, with their ages, and of the apparatus entrusted to their care, whenever called upon so to do.

SECT. 7. The foreman of each company shall, under the direction of the chief engineer, have charge and management of his company at fires; the assistant foreman shall assist the foreman in the discharge of his duties, and act as clerk of the

company, and in the absence of the foreman assume his authority. The foreman and assistant foreman shall be appointed by the chief engineer.

SECT. 8. The stewards of the Alert and Good Will Hose Companies shall act as drivers of hose carriages, take charge of and properly care for and exercise the horses used by each company. They shall be permanently engaged and devote their whole time to the department, and sleep in their respective hose houses at night; and for the proper execution of all duties required of them shall be subject to the direction of the chief engineer.

SECT. 9. It shall be the duty of every engine, hose, and hook and ladder company, to have its engine, hose and other apparatus cleaned, washed, oiled, reeled and housed immediately after its return from any fire or service, and at all times to maintain the same in good condition, and the members of the several companies shall perform any necessary duties which the chief engineer or their respective foreman may direct.

SECT. 10. All members of the department when on duty shall wear some suitable badge, to be designated by the board of engineers. The chief and permanent members shall wear at all times when on duty the regulation parade uniform worn by the fire department.

SECT. 11. The pay rolls for the board of engineers and the several fire companies shall be made up by the chief and clerk of the board of engineers semi-annually, on the first day of January and July. Foremen and clerks of companies will forward their pay rolls to the board of engineers for approval and after the action of said engineers and the approval of the city auditor and the committee on accounts and claims, said pay rolls shall be passed over to the city tax collector, under whose sole direction all sums for services of call firemen shall be disbursed.

SECT. 12. No charge for extra services will be allowed any member of the department unless upon an order of a member of the board of engineers.

SECT. 13. No engine, hose, or hook and ladder carriage shall be taken to a fire out of the city without permission from

the chief engineer, except steamer Pioneer, which may be taken to any fire in the village of Penacook, nor shall any apparatus of the fire department be taken from the city except in case of fire, without permission from the board of mayor and aldermen; and in sending any apparatus to aid in extinguishing fires in neighboring localities, the chief in all cases will authorize his assistant next in rank available to take charge of the direction of such apparatus, and not allow any fireman, at such an emergency, to leave the city, except such a number as is actually required to man the apparatus, and no member to leave without permission or direction from the chief engineer.

SECT. 14. It shall be the duty of engineers and firemen, whenever there is an alarm of fire in the city, to repair immediately to the place of such fire, wearing a suitable badge, and the engineers shall take proper measures that the several engines and other apparatus be arranged and duly worked for the speedy and effectual extinguishment of the fire. The engineers shall inspect and make themselves familiar with all shops, hotels, tenement blocks, and all public buildings, halls, churches, schoolhouses, and asylums once in each six months and study the location of all hydrants and reservoirs in the city, and generally inform themselves in all matters pertaining to their duties as engineers. No engineer shall interfere with or attempt to give orders relative to the location or use of a line of hose, when he has ascertained that another has command of it, unless by consent of the engineer in command of it, or by orders of the officer in command of the fire; and it shall be his duty to inquire if there is an officer in charge.

SECT. 15. For each absence from fire, or neglect of duty, the chief engineer, the assistant engineers, and engineers of steamers shall be fined three dollars, and each other member of the department one dollar; provided, however, that any fireman liable as above may in case of sickness have power of substitution by giving notice, each assistant engineer to the chief, each foreman to an engineer, and each other member to the foreman of his company. All fines shall be paid to the clerks of respective companies at the first regular meeting

after they are incurred. The clerks of companies shall disburse the fines to substitutes answering for absent members in cases where there were substitutes. In cases where there were no substitutes the fines shall be paid to the city.

SECT. 16. Any volunteer company using the apparatus of the city at any fire shall be under the control and command of the chief engineer and his assistants, agreeably to the foregoing provisions of this chapter.

SECT. 17. The department shall appear for public parade, drill and inspection at such times as the chief engineer and committee on fire department shall order, for which purpose three hundred dollars can be expended annually. The companies in Wards 1, 2 and 3 will attend by invitation and voluntarily. Each company in the department under the direction of the chief engineer or assistants shall take out their respective engines and apparatus for exercise and drill as often as he shall direct, such exercise and drill to take place in public, not oftener than once a month, and at least once in two months, between the first of April and November.

SECT. 18. The engineers shall have control of all persons appointed to serve in any company of the fire department and power to direct and control the labor of all persons present at any fire. An engineer may and shall cause any fire deemed by him to be dangerous in any place to be extinguished or removed.

SECT. 19. The engineers may establish such regulations respecting the kindling, guarding and safe-keeping of fires and for the removal of shavings and other combustibles from any building or place, as they shall think expedient. Such regulations shall be signed by a majority of the engineers. Such regulations shall be approved by the mayor and aldermen, recorded by the city clerk, and copies attested by him posted up in two or more places in the city thirty days, when they shall take effect. Penalties not exceeding twenty dollars for each offense may be prescribed by the engineers for the breach of such regulations, and such regulations shall remain in force until altered or annulled.

SECT. 20. The board of engineers may from time to time

make and enforce such regulations for the government of the department as may be deemed proper, subject to the approval of the board of mayor and aldermen.

SECT. 21. If any member of any of the several companies shall wilfully neglect or refuse to discharge his duty, or shall be guilty of disorderly conduct or disobedience to any officer or to any engineer, he shall for any such offense be forthwith dismissed from the department by direction of the chief engineer. No person shall be a member of, or serve in, the fire department, who is under the age of twenty years, and no person whose occupation is carried on outside the city shall be appointed a member of the fire department.

SECT. 22. All applicants for membership shall be nominated by the chief engineer, and shall receive pay and be considered members of the department from the date of their confirmation by the board of mayor and aldermen.

No person shall hereafter be appointed to any position in the fire department unless and until the committee on fire department shall have certified in writing to the board of mayor and aldermen that such person has been examined by them, or under their supervision, and is in their opinion qualified to perform the duties of the position to which he is nominated.

No officer or member of the permanent, or officer of the call, force shall attend any political convention as a delegate, distribute tickets at any election, or take any part whatever in political matters other than to exercise the right of suffrage, and no political or religious discussion shall be permitted in any of the department houses.

SECT. 23. The chief engineer shall have the care and management of the rooms, apparatus, machinery, wires, poles and signal boxes connected with the fire-alarm telegraph. He shall prepare rules and directions for giving alarms of fire through the telegraph. He shall have the superintendence, and under the direction of the joint standing committee on the fire department have control of the several stations, the apparatus, the furniture therein, and all other property appertaining to the department. He shall, with the assistance of

the permanent men at the Central Station, make the necessary repairs and take care of the fire-alarm system, including the batteries, all alarm boxes, and everything pertaining to the fire-alarm system. He shall personally be able to master the fire-alarm in every particular, and every permanent man at the Central Station shall be obliged to understand the fire-alarm system, in order that the chief engineer may call upon any of them to attend to and repair any part of the same. This provision shall not be construed to prevent the chief engineer from employing extra linemen when necessary, or from acting promptly in any emergency.

SECT. 24. Permanent officers and men of the department shall be entitled to a vacation without loss of pay of fourteen days in each year. In addition they shall be entitled to be off duty without loss of pay two days in each month, such two days not to be taken in the same week. On the weeks that they are not off duty for a day, under the above provision, they shall be entitled to be off duty for one night without loss of pay. All vacations and absences from duty under the above to be under the direction of the chief engineer.

SECT. 25. The joint standing committee on fire department, subject to the board of mayor and aldermen, shall by themselves or agent purchase all supplies in connection with the fire department, and direct all repairs of houses and apparatus; and all bills contracted for the department must receive their approval before being passed on by the committee on accounts and claims. They shall hold stated meetings at least once each month at the Central Fire Station, and all communications to the city government from the fire department must come through said committee, and annually at the call of the finance committee, in connection with the chief engineer, they shall make recommendations as to the amount of appropriations the wants of the department will require for the coming year.

SECT. 26. The city marshal and regular police officers shall have in charge all matters relating to the removal and protection of personal property endangered by fire, and any person entering a building or removing property contrary to

the orders of the city marshal or such police officers, shall be fined five dollars; and in the absence of firemen at fires, from their respective department houses, the policemen in that vicinity will take charge of said houses.

SECT. 27. It shall be the duty of the chief engineer to cause all snow and ice or other obstructions to be removed from and around all fire hydrants owned by the city, so that at all times the fire department can make immediate connection of the hose to the hydrants.

SECT. 28. The annual pay of the members of the fire department shall be as follows, and in full for all services: Chief, twelve hundred and fifty dollars per annum and house rent; permanent force at Central Fire Station, seven hundred and twenty-eight dollars each; drivers at Good Will and Alert Hose houses, seven hundred and twenty-eight dollars each per annum, paid monthly; assistant engineers, within the precinct, one hundred and twenty-five dollars each; engineers of steamers, within the precinct, one hundred and fifteen dollars each; foremen of companies, within the precinct, each ninety dollars per annum; assistant foremen of companies, within the precinct, eighty-five dollars per annum; members of steamer, hose and hook and ladder companies, within the precinct, and house man at Central Fire Station, eighty dollars per annum; outside the precinct, engine companies Nos. 2 and 3, two hundred and forty dollars each, and Pioneer Steamer Company, No. 3, five hundred dollars, said sums to be divided among the members as each company shall direct; engineer of steamer at Penacook, seventy-five dollars per annum; assistant engineer at Penacook, twenty-five dollars; assistant engineer at East Concord, fifteen dollars; and assistant engineer at West Concord, twenty dollars.

Section 28 amended. Pay of members of Chemical Company advanced to eight hundred dollars. August 15, 1907.

SECT. 29. The several engineers residing in Wards 1, 2 and 3 shall have the entire care and control, under the direction of the chief engineer, of the buildings and appurtenances occupied in part by the fire department situated in

said wards, respectively, to whom all applications for the use of the halls, or any other part of such building, shall be made. Said engineers may severally appoint janitors, who shall serve under the exclusive direction of the engineer having the care and control of the buildings where said janitor shall be appointed. Each of said engineers shall annually, in the month of December, render a detailed statement, in writing, to the mayor and aldermen, of all receipts and expenditures for the preceding year on account of such buildings.

SECT. 30. Stewards for the Pioneer Steamer Company and engine companies Nos. 2 and 3 shall be appointed by the mayor and aldermen, and shall receive for all services performed by them in that capacity the following sums: For Pioneer Steamer Company, thirty dollars per annum, and when performing the duties of janitor of the building an additional sum of forty-five dollars per annum; and for steward of Engine Company No. 2, fifteen dollars per annum; and for steward of Engine Company No. 3, thirty dollars per annum. No steward shall be allowed to purchase supplies for such building, or for the department, unless by the authority and direction of the committee on fire department; and in no case shall he have any care or control of the building or its appurtenances occupied by the company of which he is a member, except in the immediate service of the company, unless he shall be appointed janitor thereof, when he shall be under the direction of the engineer, as provided in the foregoing section.

SECT. 31. The permanent men and horses at all of the fire stations in Concord shall at all times be on duty at their respective stations to attend to fire-alarm calls; and neither the permanent men nor the permanent horses connected with the fire department shall engage in any work for any other department of the city.

The men at the different fire stations shall do such work in connection with the station and apparatus as the chief engineer or his assistants may direct. All permanent men shall lodge in their respective stations (except chief), and in all cases of absence a substitute must be furnished; and in all cases when any extra service is required, the chief, with the sanction of the

committee on fire department, shall have power to hire the same; the chief may also increase as far as possible the number of call men that wish to lodge at any fire station, subject to the regulations of the fire department. The chief engineer shall be furnished with a horse and wagon, to be maintained by the city, for his use at all times.

SECT. 32. All alarms for brush or forest fires shall be responded to by members of the fire department under such rules and regulations as shall be prescribed by the chief engineer.

SECT. 33. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed; but such repeal shall in no wise revive or put in force any ordinance heretofore repealed, and this ordinance shall take effect upon its passage.

ADDITIONAL REGULATIONS.

ARTICLE I. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached, in order to reach the fire. And any company coming to a fire, and finding an incompleated line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line, in lieu of laying a line of its own.

ART. 2. When two or more engine companies are playing in a continuous line, the pipe shall belong to the company attaching to hydrant or steamer as provided in the foregoing article; but any company furnishing the entire line, and receiving water from a steamer, the pipe shall belong to such company so receiving.

ART. 3. Hose companies shall attach first lines to high pressure hydrants where accessible; steamers attaching to those of low pressure, or reservoir.

ART. 4. No company shall take possession of a hydrant or reservoir unless their hose and apparatus for attaching to the same are at hand and ready for use.

ART. 5. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.

ART. 6. In case of fire the foreman first arriving shall be in command until the arrival of an engineer.

ART. 7. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.

ART. 8. Fire hats are furnished by the city for the protection and identification of the firemen, and they must be worn at all fires except in the severest weather, when caps may be worn.

ART. 9. While attending fires it shall be the duty of members of the department, when not performing active service, to concentrate about their respective pieces of apparatus.

ART. 10. All engine and hose companies responding to second or general alarms will connect, but will not lay their lines until they have reported to the officer in command for orders.

ART. 11. The wearing of badges shall not be regarded by members of the department as conveying to them the privilege of free access to premises after fire has been extinguished.

ART. 12. All members of the department shall address all officers by their respective titles while on duty at fires.

ART. 13. The roll of each company shall be called as soon as the apparatus is housed, and no member will be excused except in case of sickness. Rolls must be called after every alarm. No officer or member will be marked present on the company roll unless present at fires and returns to house with apparatus, unless excused by an engineer.

ART. 14. Each company shall be allowed three substitutes, except Hook and Ladder Company No. 1, which shall have five, to be approved by the chief engineer.

ART. 15. All orders issued by the chief or an assistant engineer shall be promptly obeyed. At all fires occurring in the night, the chief engineer shall be identified by a red light, assistant engineers by blue lights.

ART. 16. Members of the department are expected to cheerfully comply with all rules and regulations which are adopted or which may be adopted. Captains will be held responsible for all lack of promptness and efficiency in their commands.

REPORT OF WATER COMMISSIONERS.

OFFICE OF THE BOARD OF WATER COMMISSIONERS.

CONCORD, N. H., January 13, 1910.

To His Honor the Mayor and the City Council:

The Board of Water Commissioners transmits herewith the report of Percy R. Sanders, superintendent, exhibiting in detail the operations of the department for the year 1909, which is made a part of this report.

The past year has witnessed the practical completion of the work of substituting cast-iron for the cement-lined pipe on the original system which has drawn so heavily upon our resources for the past few years.

The board finds itself at the outset of the new year in a position that will not require the purchase of any new pipe to carry on the work contemplated for the coming year.

Reference to the report of the superintendent will show that more than the usual amount of work has been done the past year in policing and cleaning the shores of Penacook Lake and in improvements upon the dam and gate-house which was made possible by the low stage of water in the lake.

We feel sure that at no time since the installation of the system has the condition of the plant and all its appurtenances and appliances been more satisfactory than at present.

Further extensions of the system will undoubtedly be demanded in the future and the policy of the board will be to concede all reasonable demands, *i. e.*, where the prospective income will yield a fair return upon the cost.

During the year the board has considered a numerously signed petition from residents of the Plains district for an extension of the distributing mains to that section, which was referred to it by the city government.

A public hearing of which due notice was given, afforded the petitioners an opportunity to present the needs of that portion of the city.

The board fully realized the advantages to the petitioners which a compliance with their request would afford, but it was unanimously of the opinion that such action was impracticable for the the following reasons :

- 1st. The territory in question is not within the precinct.
- 2d. The intersecting streets through which the pipes must be laid to accommodate the petitioners have never been laid out and accepted as highways and the city cannot expend money on private land.
- 3d. The section cannot be served from our gravity or low service system, but every drop of water supplied would have to be pumped and distributed from the high service.
- 4th. The expense of the extension (including the crossing of the river), estimated at \$23,000, is entirely disproportionate to the prospective revenue, estimated at less than \$400 per annum.
- 5th. The installation of the high service in that section would necessitate a further large expenditure for sewerage.
- 6th. Any facilities for fire protection afforded by the proposed extension must be supplemented by very considerable further outlay for additional fire apparatus.
- 7th. The quantity and quality of the present supply when the promised improvements in the system are completed, will, in the judgment of the board, be adequate and reasonably satisfactory for domestic purposes.

Respectfully submitted,

SOLON A. CARTER,
 HARLEY B. ROBY,
 HENRY C. HOLBROOK,
 HENRY E. CONANT,
 EDSON J. HILL,
 GEORGE D. B. PRESCOTT,
 HARRY H. DUDLEY,
 NATHANIEL E. MARTIN,
 CHARLES J. FRENCH, *ex-officio*,

Board of Water Commissioners.

REPORT OF THE SUPERINTENDENT.

To the Board of Water Commissioners :

I herewith present to you the thirty-eighth annual report of the operations of this department, showing the receipts, expenditures and abatements, together with a statement of extensions and improvements made during the year ending December 31, 1909:

RECEIPTS.

For water, from consumers by fixed rates,	\$21,095.08
For water, from consumers by meter rates,	45,287.44
From delinquents,	110.05
For shutting off and turning on water,	2.00
For water for building purposes,	47.60
hay and apples sold,	25.00
pipe and stock sold and labor,	467.17
old brass and iron sold,	65.95
wood sold,	104.00
building sold,	100.00
horse sold,	65.00
	<hr/>
	\$67,369.29
Deduct abatements,	61.45
	<hr/>
Net receipts for 1909,	\$67,307.84

EXPENDITURES.

GENERAL EXPENSES.

Paid pay rolls, salaries and labor,	\$9,654.13
S. G. Sanborn, rent of shop in Penacook,	24.00
Ira C. Evans Co., printing and postage,	186.10

Paid Rumford Printing Co., books,	\$26.00

EXTENSIONS AND IMPROVEMENTS.

Cast-iron main and distribution pipes have been laid and hydrants set during the year as follows:

In Broadway,

south from Allison to Stone Street, 1,075 feet 12-inch pipe in place of 6-inch cast-iron pipe discontinued.

In Broadway,

south from Stone to below McKinley Street, 1,464 feet 10-inch pipe in place of 6-inch cast-iron pipe discontinued.

In Broadway,

extended south from below McKinley to Rockingham Street, 588 feet 10-inch pipe.

In Rumford Street,

north from School to Washington Street, 1,218 feet 8-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Hutchins Street, West Concord,

extended west from Quaker Street, 589 feet 6-inch pipe.

In Garden Street,

west from Rumford to Huntington Street, 194 feet 6-inch pipe.

On hydrant branches,

179 feet 6-inch pipe; 15 feet 6-inch cement-lined pipe discontinued.

On blow-off,

39 feet 6-inch pipe; 39 feet 4-inch pipe discontinued.

Also 881 feet of 1-inch pipe.

Seventeen new hydrants have been set, as follows:

- On Franklin Street, between Auburn and High.
- On Garden Street at Huntington.
- On South Street at Pillsbury.
- On Broadway at Carter.
- On Broadway between McKinley and Rockingham.
- On Rockingham Street at Donovan.
- On Donovan Street at Wiggin.
- On Hutchins Street, West Concord, at J. O. Turcotte's.
- On Penacook line, opposite F. E. Frost's.
- On Penacook line, opposite F. H. Blanchard's.
- On Penacook line, at H. B. Annis'.
- On Penacook line, at W. H. Garvin's.
- On Penacook line, south of Willow Hollow.
- On Penacook line, at south end of Woodlawn Cemetery.
- On Centre Street, Penacook, at Michael Corbett's.
- On High Street, Penacook, at Stark.
- On Summer Street, Penacook, at Church.

There have been set 26 gates; discontinued, 7.

SUMMARY OF THE FOREGOING.

NEW PIPES, HYDRANTS AND STOP-GATES.

<i>Pipes.</i>		<i>Hydrants.</i>		<i>Stop-Gates.</i>	
1-in.,	881 feet.	In city,	10	6-in.,	20

6 in.,	2,613 "	6-in.,	4
	<hr/>		<hr/>
	3,855 feet,		7
equal to .73 miles.			

Total length of main and distribution pipes now in use, 357,652 feet, equal to 67.74 miles.

Total number of hydrants now in use, 389.

Total number of gates now in use, 945.

SERVICE PIPES.

There have been laid during the year and connected with the main pipes, 48 service pipes consisting of

40	¾-inch,	993	feet.
1	1-inch,	21	“
5	2-inch,	122	“
2	6-inch,	60	“
48		1,196	feet.

There have been discontinued, 5; whole number in use at the present time, 3,670; total length of service pipes, 85,206 feet, or 16.14 miles. We have placed 52 service boxes at the curb on old services and have relaid 17 services.

We have set 234 meters during the year; 2 have been removed, making the total number now in use, 1,764.

The following table shows the height of water in Penacook Lake on the first day of each month:

January,	180.15	July,	183.80
February,	180.00	August,	182.45
March,	180.60	September,	181.20
April,	182.00	October,	180.50
May,	184.60	November,	179.95
June,	184.45	December,	179.30

The lowest point reached during the year was on December 31, being 179.20; the highest was on May 10 and was 184.65; mean height for the year was 181.40, which was 2.01 feet lower than the mean height for the year 1908.

The work of cleaning up the shores of the lake has been continued this season, and we have been able by reason of the low stage of the water to remove a very large number of

stumps. These were placed in large piles and, as soon as they became sufficiently dry, were burned.

The underbrush was also cleaned back a short distance from the shore, to enable a more thorough inspection, and this was disposed of in the same manner as the stumps.

The cleaning and thinning of the woodlots was carried on during the winter months by cutting out old and dying trees and trimming the underbrush.

The construction work of the year in the laying and relaying of new mains was carried out, as shown by the schedule. The most important was the relaying on Broadway, the 6-inch cast-iron from Pillsbury to below McKinley Street being replaced by 12-inch and 10-inch iron, and the extension of the 10-inch iron from below McKinley to Rockingham Street. The 6-inch pipe taken up was in good condition, and is stored at the pipe yard at the pumping station and will be laid again as needed.

On Rumford Street, the 4-inch cement-lined from School to Washington Street was replaced by 8-inch cast-iron.

We have set 17 new hydrants this season, as recommended by the hydrant commission, thereby enabling the system to be of greater efficiency in case of fire.

The purchase of a tapping machine this season, for making 2, 4, 6 and 8-inch cuts under pressure, has permitted the department to set six hydrants on the 14-inch cement-lined main between West Concord and Penacook and to make several other connections without interfering with the supply.

We have made some repairs on the east fence on the dam at Penacook Lake by building a concrete curb and gutter, and a concrete walk has been laid from the road to the gate house.

The road across the dam from Hutchins Street to the Park has been placed in first-class condition by the addition of a heavy coating of stone chips and crushed stone.

The wooden dam at the outlet of Long Pond in Webster having become insecure by reason of age, it was decided, after inspection by members of your Board, to replace it with a structure of the same material. The lumber was furnished by

the department and the labor by C. H. Barnett of Penacook, and the dam is now in better condition than ever.

I wish, in submitting this report, to thank the president and members of the Board for their advice and assistance to me during the past year.

Respectfully submitted,

PERCY R. SANDERS,

Superintendent.

REPORT OF THE ENGINEER OF THE PUMPING STATION.

PUMPING STATION, CONCORD WATER WORKS.

P. R. SANDERS, *Superintendent* :

SIR: I would report that the pumping machinery at the pumping station is in good working order. Boiler No. 2 will need a set of new grates this coming year.

Following will be found a statement of coal and other supplies used at the pumping station during the year, with a table showing the work for each month.

STATEMENT.

101 tons 64 pounds Cumberland coal.
150 tons 391 pounds Pocahontas coal.
91 gallons of oil.
43 pounds of waste.
17 cords of wood.
18 pounds of grease.

ENGINE RECORD.

MONTHS.	No. days pumping engine No. 1.		No. days pumping engine No. 2.		Total days pumping.	Total hours pumping.	Average time pumping.	Total water pumped.	Daily average pumped.	* Total coal consumed.	Daily average consumed.	Total pounds of wood consumed.	Gallons pumped per pound of coal.

E.

SUMMARY OF STATISTICS.

FOR THE YEAR ENDING DECEMBER 31, 1909.

In form recommended by the New England Water Works Association.

CONCORD WATER WORKS.

CITY OF CONCORD, COUNTY OF MERRIMACK, STATE OF NEW HAMPSHIRE.

GENERAL STATISTICS.

Population by census of 1900—19,632.

Date of construction—1872.

By whom owned—City of Concord.

Source of supply—Penacook Lake.

Mode of supply—Gravity, also pumping to reservoir for high service and fire protection.

PUMPING STATISTICS.

1. Builders of pumping machinery—Henry R. Worthington, Harrison, N. J.
2. Description of fuel used—*a.* Kind—bituminous.
' *b.* Brand of coal—Pocahontas and Cumberland.
c. Average price of coal per gross ton delivered, \$4.56.
3. Coal consumed for the year—251.203 tons.
4. (Pounds of wood consumed) ÷ 3 = equivalent amount of coal—7,809.333.
5. Total equivalent coal consumed for the year for pumping purposes—254.644 tons.

6. Total pumpage for the year without allowance for slip—299,115,016 gallons.

7. Average static head against which pump works—200.46 feet.

8. Average dynamic head against which pump works—205.07 feet.

9. Number of gallons pumped per pound of equivalent coal—524.3.

10. Duty=

$$\frac{299,115,016 \text{ gallons pumped} \times 8.34 \text{ (lbs.)} \times 100 \times \text{dynamic head, } 205}{\text{Total fuel consumed } 570,594 \text{ pounds}} = 89,639,571$$

Cost of pumping figured on pumping station expenses, \$3,243.93.

11. Per million gallons pumped—\$10.845.

12. Per million gallons raised one foot (dynamic)—\$0.053.

STATISTICS RELATING TO DISTRIBUTION SYSTEM.

MAINS.

1. Kind of pipe—cast iron and cement-lined.
2. Sizes—from two-inch to twenty-four-inch.
3. Extended—2,416 feet during year.
4. Renewed—3,811 feet during year.
5. Discontinued—3,855 feet during year.
6. Total now in use—67.74 miles.
7. Number of leaks per mile for year—
8. Length of pipes two inches and less diameter—3.35 miles.
9. Number of hydrants added during year—public, 17; private, none.
10. Number of hydrants now in use—public, 389; private, 63
11. Number of stop gates added during year—19.
12. Number of stop gates now in use—945.
13. Number of stop gates smaller than four inch—none.
14. Number of blow-off gates—82.
15. Range of pressure on mains at center of city—88 pounds high service and 48 pounds low service.

SERVICES.

16. Kind of pipe—cement-lined.
17. Sizes—three-fourth-inch to ten-inch.
18. Extended—1,196 feet.
19. Discontinued 116 feet.
20. Total now in use—85,206 feet.
21. Number of service taps added during year—48.
22. Number now in use—3,670.
23. Average length of service—23.216 feet.
24. Average cost of service for the year—
25. Number of meters added during year—234.
26. Number now in use—1,764.
27. Percentage of services metered—48.7.
28. Percentage of receipts from metered water—67.3.
29. Number of elevators added—none.
30. Number now in use—10.
31. Number of standpipes for street watering—39.

REPORT OF CITY ENGINEER.

OFFICE OF THE CITY ENGINEER,
CONCORD, N. H., December 31, 1909.

To the City Council:

The seventeenth annual report of the engineering department is herewith submitted.

The expenses of this department have been as follows:

Paid engineer and assistants,	\$2,847.00
for supplies,	77.68
livery and car fares,	149.15
repairs,	3.40
express,	2.90
telephone service,	27.00
real estate transfer cards,	10.45
	<hr/>
Total,	\$3,117.58
Appropriation,	3,000.00
	<hr/>
Overdrawn,	\$117.58

ASSESSORS' MAPS.

No appropriation was made for this work and no field work was done during the past season. This is unfortunate for the new board of assessors coming into office in 1911, who will need something in this line to aid them in their work.

Transfers of real estate in the city have been reported to this office monthly, by the register of deeds, at an expense of \$10.45. The maps already made will be brought up to date for the assessors' use April 1, 1910.

PARKS.

Little work was done for the park commissioners during the season of 1909.

FIRE DEPARTMENT.

The plan showing all the hydrant locations and the location of the fire-alarm boxes in the city proper has been brought up to date, copies made and turned over to the chief engineer of this department.

A plan showing the location of the hydrants and fire-alarm boxes in Penacook has been made, copies of which have been forwarded to the assistant chief in that district.

CEMETERIES.

In Blossom Hill Cemetery one new block has been laid out, surveys made for additional blocks on the northerly side of the cemetery, the State Hospital lot laid out and lines and grades given for the grading of the Cummings lot.

In the Old North Cemetery a survey has been made of the lots as occupied, and a plan will be made this winter showing occupants and owners of the lots so far as information is obtainable.

BUILDING PERMITS.

In company with the chief engineer of the fire department I have attended twenty-three hearings on petitions for new buildings and for alterations of existing structures. In one case no action was taken, as the petitioner decided to build of brick before the hearing was completed. One case was referred to the mayor and aldermen, and twenty-one petitions were granted.

HIGHWAY DEPARTMENT.

Grades and lines have been given for street and sidewalk improvements when requested, the usual monthly measurements made and statements prepared showing the amounts of coal-tar concrete laid on roadways and sidewalks during the season in which this work was laid.

There is an old tradition concerning the mileage of our highways, to the effect that we have 300 miles of roads. This is incorrect, as we have a total mileage of one hundred and seventy and seven tenths (170.7) miles, forty-four and forty-four one hundredths (44.44) miles of which are in the more compact portion of the city.

WATER WORKS.

A plan showing the highways in the "Plains" district was made and turned over to the superintendent of the works.

LANDS AND BUILDINGS.

Some time was spent on surveys and plans for locations of the proposed fire station in Ward 7. Preliminary plans were made for a three-piece house, upon which plans estimates of cost were made.

SEWERS.

In the city precinct nothing has been done to improve the condition of the over-loaded mains, and the unusually dry season was truly fortunate and the complaints from flooded premises were very few.

Liberal appropriations should be made and work done to relieve the congested conditions in our sewerage system, as these conditions become more serious from year to year, owing to additional laterals, improved street surfaces and more connections with the system.

The appropriation for this precinct was overdrawn \$275.47. There was paid from the \$2,000 appropriation an overdraft of \$337.35 from the 1908 account, and the cost of the Gladstone Street sewer was increased about three hundred dollars above the estimate on account of rock work necessitated and not expected in such amount in this locality.

A detailed statement of the expenditures from this appropriation will be found on the accompanying pages.

WEST CONCORD SEWER PRECINCT.

The 20-inch outlet in this precinct was the source of trouble in the low land near its outlet. Necessary repairs were made, the sewers flushed and minor repairs made. The appropriation was overdrawn \$52.47.

EAST CONCORD SEWER PRECINCT.

No repairs were made and no money expended in this precinct during the past season. The amount available for construction and repairs remains the same as last year, viz., \$127.53.

ST. PAUL'S SCHOOL SEWERAGE PRECINCT.

A flush tank in the Hopkinton Road was changed on account of macadamizing the roadway, and the usual annual payment made to the city water works, leaving a balance unexpended of \$3.86.

The employees during the past season have been: Fred W. Lang, principal assistant; Clarence A. Little, rodman, who have rendered efficient services in their respective positions.

The work of the hydrant commissioners and the board of examiners of plumbers will be found under their respective headings in their reports to the city council.

To the mayor and the city council I wish to express my appreciation for their support and coöperation, and to the heads of other departments for courtesies extended to this department.

CITY PRECINCT, NEW SEWERS.

Sewer from Perkins Street to Penacook Street, across land of J. N. Patterson.

262 feet of 6-inch Akron pipe.

Paid for labor,	\$35.63
pipe,	31.74
cement,	1.85
trucking,	1.50
	<hr/>
	\$70.72

Average cost per foot, \$0.269+.

Material excavated, sand and gravel.

HAMMOND STREET.

374 feet of 10-inch pipe laid.

Paid for labor,	\$103.31
pipe,	105.13
cement,	5.55
brick,	12.05
castings,	12.45
trucking,	9.00
	<hr/>
	\$247.49

Average cost per foot, \$0.661+.

Material excavated, sand.

GROVE STREET.

93 feet of 10-inch pipe laid.	
Paid for labor,	\$44.31
pipe,	23.04
cement,	3.80
brick,	8.50
castings,	12.50
trucking,	3.03
concrete repairs,	7.20
	<hr/>
	\$102.38

Average cost per foot, \$1.10+.

Material excavated, sand and gravel.

DUNKLEE AND HUMPHREY STREETS.

283 feet of 10-inch pipe laid.	
Paid for labor,	\$97.69
pipe,	80.30
cement,	3.80
brick,	9.78
castings,	12.15
wrought iron,	.45
oil,	1.40
trucking,	9.39
	<hr/>
	\$214.96

Average cost per foot, \$0.759+.

Material excavated, sand.

GLADSTONE STREET.

212 feet of 10-inch pipe laid.	
Paid for labor,	\$525.11
pipe,	74.16
cement,	6.00
brick,	8.50
castings,	11.25
wrought iron,	.30
hardware,	1.20

CITY ENGINEER'S REPORT.

201

Paid for blacksmith,	\$5.24
oil,	2.10
trucking,	45.78
	<hr/>
	\$679.64

Average cost per foot, \$3.205+.

Material excavated, gravel and large boulders.

REPAIRS.

20-inch outlet, Stickney's field.	\$1.78
Tremont Street,	8.28
Waverly Street,	8.00
South Spring Street,	1.89
Jackson Street,	11.25
Downing Street,	10.53
South Street,	1.30
Bowery Avenue,	4.30
Fiske Street,	4.35
Centre Street,	122.25
Warren Street, broken covers,	2.95
North State Street, broken covers,	2.95
	<hr/>
	\$179.83

FLUSHING.

Paid for labor,	\$124.92
team,	30.28
oil,	.70
	<hr/>
	\$155.90

TOOL ACCOUNT.

Paid for flushing hose,	\$290.00
freight on hose,	.60
blacksmithing,	2.40
	<hr/>
	\$293.00

Expended for new work,	\$1,315.19
repairs,	179.83
flushing,	155.90
tool account,	293.00
overdraft, 1908,	337.35
	<hr/>
	\$2,281.27
Total expenditure,	\$2,281.27
Appropriation,	2,000.00
	<hr/>
Overdrawn,	\$281.27

SEWERS BUILT IN 1909.

10-inch pipe,	962 feet.
6-inch pipe,	262 "
	<hr/>
Total,	1,224 feet.

BOARD OF EXAMINERS OF PLUMBERS.

CONCORD, N. H., DECEMBER 31, 1909.

To the City Council:

The tenth annual report of this board is herewith submitted.

The members of the board are: William L. Reagan, a practical plumber; Charles H. Cook, M. D., and Will B. Howe, city engineer.

The receipts of the board were twenty-five (25) dollars. The expenditures one (1) dollar.

Twelve meetings were held. One application for a master's certificate was received, the applicant examined and licensed. Six applicants were examined for journeymen's licenses; three were licensed, the other three failed to pass the required examination.

The following list gives the names of all registered plumbers authorized to work at the business during the year:

MASTER PLUMBERS, 1909.

W. Arthur Bean, certificate renewed.
Elmer E. Babb, license renewed.
Charles W. Bateman, license renewed.
Frederick Booth, certificate renewed.
Mary E. Clifford, certificate renewed.
Seth R. Hood, certificate renewed.
George A. Harwood, certificate renewed.
Timothy Kenna, license renewed.

John C. Keenan, license issued December 11, 1909.
William A. Lee, certificate renewed.
Michael J. Lee, certificate renewed.
Richard J. Lee, certificate renewed.
George S. Milton, certificate renewed.
George A. Nichols, license renewed.
Benjamin H. Orr, certificate renewed.
Willis H. Robbins, certificate renewed.
John C. Smith, license renewed.
William M. Trottier, license renewed.
Albert S. Trask, certificate renewed.

JOURNEYMEN PLUMBERS, 1909.

Joseph P. Beaudett, license renewed.
Arthur W. Bunten, license renewed.
George N. Berry, certificate renewed.
Frank D. Brown, license renewed.
Patrick A. Clifford, certificate renewed.
Fred F. Converse, license renewed.
Henry P. Cilley, certificate renewed.
Edward F. Edgeworth, license issued July 19, 1909.
Thomas F. Foley, license renewed.
Michael J. Finn, license renewed.
James C. Healey, license issued July 13, 1909.
Philip King, certificate renewed.
Harry H. Kennedy, certificate renewed.
P. H. D. Leary, certificate renewed.
Frank M. Murray, license renewed.
William H. McGuire, certificate renewed.
Manley W. Morgan, license renewed.
Harris S. Parmenter, license renewed.
William L. Reagan, license renewed.
Henry Riley, license renewed.
William M. Sutton, license issued July 28, 1909.

Board of Examiners of Plumbers.

BOARD OF HYDRANT COMMISSIONERS.

CONCORD, N. H., December 31, 1909.

To the City Council:

At a meeting of the board held November 10, 1908, the board unanimously recommended the installation of hydrants at the following locations:

On the Fisherville Road, opposite Fred E. Frost's.

On the Fisherville Road, 150 feet southerly from Frank Blanchard's house.

On the Fisherville Road, 200 feet northerly from H. B. Annis' house.

On the Fisherville Road, halfway between Garvin's and Morgan's houses.

On the Fisherville Road, between two houses next south of Willow Hollow.

South Main Street, Penacook, between two hydrants at Woodlawn cemetery.

High Street, Penacook, opposite Stark Street.

Center Street, Penacook, 400 feet southerly from Spring Street.

Summer Street, Penacook, opposite Church Street.

On January 12, 1909, the board agreed to recommend the following locations as points where hydrants should be installed:

Broadway, at Carter Street.

Broadway, between McKinley Street and Rockingham Street.

Rockingham Street, at Donovan Street.

South Street, near Pillsbury Street.

Huntington Street, at Garden Street.

Franklin Street, halfway from Auburn Street to High Street.

Donovan Street, at Wiggin Street.

On January 17, 1909, the above lists were embodied in a letter sent to Hon. Solon A. Carter, President of the Water Board.

All the above mentioned hydrants were set during the past season.

Respectfully submitted,

W. B. HOWE,

W. C. GREEN,

P. R. SANDERS,

Board of Hydrant Commissioners.

HIGHWAY DEPARTMENT.

REPORT OF COMMISSIONER OF HIGHWAYS.

To the City Council:

GENTLEMEN: In reviewing the work of the highway department for 1909, I find that no unusual work has been done aside from the permanent improvements. The demands for repairs in all the various branches of the work continue to increase and it requires considerable planning to meet them all and yet have something left to care for the storms which are liable to come at the close of the season. For several winters we have not had heavy snows which has made it possible to do more in the way of general repairing.

The regular appropriations for 1909 were as follows: General maintenance, \$27,000; catch basins, \$1,400; trees, \$2,000; sidewalks and crossings, new, \$1,000; sidewalks and crossings, repair, \$2,000.

The appropriation for general maintenance may seem large but it is from this amount that most of the work of the department comes, such as the winter expense, general repairs on the streets, building and repair of gravel sidewalks, care of bridges, etc.

Concord has an unusual number of bridges for a city of its size, having four across the Merrimack, five over the Contook, seven on the Turkey river and five on the Soucook beside innumerable bridges across small brooks. It was necessary to paint the Loudon bridge last year and it was the intention to put in a new floor system but it was impossible to do the work on account of the lumber not being received in season. Both the iron bridge on Main Street and the "Twin" bridge at Penacook were replanked and painted. A few years ago, the selectmen of Pembroke were consulted in regard to

constructing a new wooden bridge at Richardson's mill, similar to the others across the Soucook. They thought that although the old bridge had been in use thirty-five years it could be repaired. This was done by the town of Pembroke and the city of Concord paid one half the expense. Since that time, the dam which helped to hold back the water has gone out and it seems to me that conditions there are such that the bridge ought to be rebuilt and I hope the town of Pembroke will be willing to do it the coming season. The bridge over the Soucook on the South Pembroke road was replanked last year at an expense of \$161.45, one half of which was paid by the town of Pembroke.

Very few petitions for new concrete walks were granted and therefore not much work had to be done in that line. But there is an increase in the amount of repairs required on concrete walks as the number of walks laid has been increasing each year. The call for repairs is so great and some of the walks are in such condition that the department is obliged to repair some of them even though the appropriation be exhausted. It will be necessary to increase the amount for repairs as the number of walks increase.

The subject of trees in Concord is a big one as much of the city's beauty depends on them. An appropriation of \$2,000 is a very small amount when the number of trees is taken into consideration. In fact that amount should be expended in

caring for the trees which we have and in setting out new ones. It becomes more evident each year as dead trees are removed that we shall soon notice the loss if they are not replaced. The brown-tail moth was with us in increased numbers last summer and instead of any relief from the pest we shall probably continue to have them and also the elm tree beetle and very likely the gypsy moth. Last July I discovered that the elm trees in several sections of the city were showing the ravages of the beetle. The attention of the city council was immediately called to the fact but the communication was laid on the table by the mayor and no action taken. When the matter was finally taken up, a committee was appointed to investigate and report. The committee found that it would be impossible to do anything until spring as the most effective work could be done then. It will be necessary to do considerable spraying as soon as the leaves appear. Property owners in Concord have shown unusual interest in the work of destroying the brown-tail moth and it has been through such interest and coöperation that we have been able to keep the trees in such good condition.

Last year I became a member of the Massachusetts Highway Association and the meetings have been very pleasant and instructive. This association is made up of superintendents of streets, civil engineers and others interested in highway construction. Opportunity has been given the members to inspect various kinds of road work being done in Massachusetts. During the past year considerable attention has been given to the preservation of macadam by the appliance of different tar and oil binders and on one occasion the members were taken on a long tour of inspection of this kind of work. Some of the experiments had been made by the State Highway Commission and others by the cities themselves and we saw roads which had been treated with several different materials and found that various results had been obtained in the different places. In most cases tar had proved to be an economical and satisfactory binder. Last summer the department continued the use of the gas house tar as the experiments of the year before seemed to be satisfactory. We also

used some tarvia which gives good results. I would recommend doing considerable oiling next season as something is necessary to preserve the surface of macadam roads which soon show the wear of automobile traffic.

It is now about fifteen years since Concord began the work of making permanent improvements in road building. The work has been done gradually, a small section being taken each year, until we have completed several long stretches of macadam, and we now begin to realize that we have some modern, improved roadway. It is very gratifying to hear many favorable comments on our roads from visitors to our city.

The old steam roller, which was purchased in 1895, was becoming expensive to keep in repair, and the attention of the city council was called to it. The matter was referred to a committee, who investigated and decided that it would be rather expensive to repair the old roller and recommended the purchase of a new one. The old roller had given such good satisfaction that it was decided to buy another Kelly machine.

The permanent work for 1909 included macadamizing Fiske Street, a portion of South Main and Water Street, a section of the Hopkinton Road, Main Street, Penacook, and graveling on the Loudon Road. The sum of \$1,300 was appropriated for Fiske Street. The street was excavated to considerable depth on account of the clay found there, back-filled with gravel, macadamized and otherwise put in first-class shape for \$1,233.79. On South Main Street, the section west of the track from Concord to Thorndike, and on Water Street from Main to the bridge, was macadamized for the sum of \$1,954.61. Massachusetts trap rock was used on this piece of work. On the Hopkinton Road about one thousand nine hundred feet of macadam were put in, at a cost of \$2,509.49. A considerable amount of ledge was found in excavating on this piece of work, which was unlooked for. I would recommend the continuation of this macadam next season, to meet that which the town of Hopkinton has put in to the town line. The appropriation of \$1,500 for graveling on the Loudon Road carried the work nearly four thousand feet. This work should also

be continued another year. Main Street in Penacook was macadamized at an expense of \$2,044.35. A large amount of clay had to be excavated here, but the street was macadamized, gutters paved, etc., well inside the appropriation. For permanent improvements another year, aside from those already mentioned, I would recommend macadamizing North Main Street from Larkin's store to Penacook Street, as that street is traveled considerably and needs repairing. South Street should be graded and repaired from Wheeler's Corner to the town line. The old macadam on Merrimack Street in Penacook should be repaired and the macadam extended.

The sprinkling precinct was extended last year, which made it necessary to purchase two new sprinklers. The sprinkling carts need painting and considerable repairing each year, which is done during the winter. Every few months this department receives inquiries from other cities as to the amount of sprinkling done and the cost. I find by comparing with other cities that the work is done here more satisfactorily and cheaply than in places where the work is done by contract.

I think the present system of collecting garbage is proving satisfactory and is keeping the city clean, but residents should exercise proper judgment in setting out garbage before the day for collection. There have been a considerable number of complaints made that the garbage is put out some little time before collection day, and that the receptacles are left in the street afterward. Residents should be more careful about putting out garbage, especially in the business section.

In conclusion, I wish to thank the members of the city council for the interest which they have taken in the highway department and for the just consideration which they have given to all department matters.

Respectfully submitted,

ALFRED CLARK,
Commissioner of Highways.

REPORT OF THE BOARD OF EDUCATION OF UNION SCHOOL DISTRICT, FOR YEAR ENDING MARCH 31, 1910.

For the school year closing March 31, 1910, the annual report of the Board of Education is hereby respectfully submitted.

The great importance of our public schools in their direct influence upon the people seems to grow from year to year because of the increasing demands of the times, and to keep them anywhere near the maximum of efficiency requires no small expenditure of thought and money.

With education as with other interests in our busy twentieth century life, methods must needs change to meet the changing conditions, so that the school equipment must be as close to the ideal as our means will admit.

On no one of our institutions can we so ill afford to be niggardly in the expenditure of the public funds, as in the maintenance of our schools, and yet we are certain that reasonable economy has been and will continue to be practised.

We are convinced that the schools of Union School District are second to none in our state or even within a wide radius, because of which the people are to be congratulated.

The past year has witnessed no radical change in the policy of your board. The pay schedule of teachers adopted a year ago, has proven acceptable and has established a "definite system of compensation, and makes continuance in the service of the district a matter of competency."

The Manual Training School solicits your careful inspection. We feel that no branch of our school system has more promise of gratifying results than this, under its present efficient management.

The trial given hygienic inspection for three months last year, has convinced us that genuine medical inspection should

be made a fixture in the school routine as a means for fortifying the pupils against all possible contagion from disease. To establish such inspection we propose to take immediate steps.

The change made in the High School at the beginning of the present year, in the employment of two additional male instructors, and a clerk for the principal, has proven its wisdom in the increased efficiency of the teaching force in point of discipline and instruction.

It is gratifying to know that in our efforts to maintain the high standard of our schools and to make possible an actual advance, we have had the coöperation of all interested.

To the more detailed report of the Superintendent and Financial Agent we urge your careful attention.

Respectively submitted,

JOHN VANNEVAR,
HARRY H. DUDLEY,

Board of Education.

REPORT OF COMMITTEE ON BUILDINGS AND REPAIRS.

CONCORD, N. H., March 7, 1910.

To the Board of Education of Union School District:

LADIES AND GENTLEMEN: The Buildings and Repairs Committee of Union School District submits the following annual report for your approval:

The money appropriated for repairs of buildings has been spent by the committee as judiciously as they could, and we believe that an amount not less than \$5,000 should be appropriated annually to keep the plant from the deterioration which constant usage must bring about. Following please find in detail the work that has been done at each building.

COGSWELL SCHOOL.

Slate roof repaired, furnaces repaired and cleaned, stack-heater repaired and put in proper condition, ventilation of east room overhauled and perfected, water pipes repaired, two new drinking fountains installed.

PENACOOK SCHOOL.

Furnaces cleaned and repaired, blackboards repaired, new switch button, glass reset, window sills renewed, two sanitary fountains.

RUMFORD SCHOOL.

Furnaces cleaned and repaired, slate roof repaired, flagpole painted, flush pipe repaired, electric bell repaired, wash-bowl reset, two sanitary fountains in basement.

TAHANTO SCHOOL.

Furnaces cleaned and repaired, new fence part way around lot and old fence repaired, doors to building painted, plastering repaired, new gate, sills renewed, blackboards renewed, flush-tanks repaired and two sanitary fountains.

CHANDLER SCHOOL.

New grate to boiler, slate roof repaired and new double windows.

KIMBALL SCHOOL.

New valves throughout the basement, south boiler changed to direct draft, sink drain cleaned throughout and two new clean-outs put in, new indirect radiators in one stack, one section of pin radiator renewed, blackboards repaired, new gates at east and west entrances, floors repaired, new sanitary drinking fountains installed, new curtains.

PARKER SCHOOL.

Drums on coils for indirect radiators repacked, one radiator repaired, plumbing thoroughly overhauled and parts renewed; sewer repaired—three tide traps, one manhole, one cistern for blow-off from boiler and connections, twenty-four new ball-cocks, two new valves, three new shut-offs, one new urinal, one new flush-bowl; new roof entire, stone work on roof pointed up, concrete in basement repaired; painting—outside windows and sashes drawn, all outside work painted, all inside walls cleaned, sized and painted two coats except board room, superintendent's office and book room; all ceilings calcimined except above rooms, hall woodwork varnished, window stools varnished throughout, outside doors refinished; new base for motor, blackboards renewed, woodwork in basement painted, iron work in basement painted, tablet seats put into room 8, new bell from upper floor to basement, new drinking fountains installed, new flagpole, new steam gauge, locks repaired.

EASTMAN SCHOOL.

New heating and ventilating system installed, new cess pool built at rear of building, new sanitary fountain installed, blackboards repaired, glass reset, batteries renewed, basement windows repaired, doors and windows repaired, curtains renewed, new damper.

MORRILL MANUAL TRAINING SCHOOL.

New steel ceiling for north room, second floor; door repaired, two new forges installed, new radiator for office, new lights for office, office sheathed, new locks, new blackboards, tablet chairs for lecture room.

HARRIET P. DAME SCHOOL.

Fence repaired, furnace cleaned and repaired, new locks, door repaired, piazza repaired, glass reset.

DEWEY SCHOOL.

Teachers' desks and pupils' desks repaired, risers in stairways renewed, outside doors repaired, drawers in room 4 repaired, new steps in south bank, furnaces cleaned and repaired, two sanitary drinking fountains.

GARRISON SCHOOL.

Shelves finished in library, roof repaired, one lot at rear of building graded, platform at rear of building, furnaces cleaned and repaired, plastering renewed, two new sanitary drinking fountains.

HIGH SCHOOL.

Grading north side of lot and edgestone; concreting—new driveway, large piece at rear of building, repairing old driveway; new slate blackboards in physics, chemistry and lecture rooms, new screens for basement windows, forty-two new desks, mason work on boiler, outside doors revarnished, sixty new seats for hall, new edgestone for sidewalk, boiler repacked, cluster light for stage, fire box in boiler repaired, shelves for

art room, art room piped for direct heating, chairs throughout the building repaired, master's clock repaired and system readjusted, ventilating shafts repaired, six sanitary drinking fountains installed.

WALKER SCHOOL.

New double windows, furnace cleaned and repaired, two new sanitary drinking fountains.

FRANKLIN SCHOOL.

House repainted on outside one coat, fence thoroughly painted, flagpole repaired, furnaces cleaned and repaired, flush tanks repaired, fire escapes repaired, basement repaired, two new sanitary drinking fountains installed.

MERRIMACK SCHOOL.

Furnaces cleaned and repaired, plastering renewed, new switch button, glass reset, blackboards repaired, new grates for furnaces, pipes repaired, two new sanitary drinking fountains installed.

In addition to this work many minor repairs have been made, which it will not be profitable to print.

Some of the work for next year will be adjusting the ventilating apparatus of the High School, painting of the Harriet P. Dame School, repairing the roof of the Garrison building, completing the inside finish of the Dewey School, new gates at the entrance of many buildings to lessen expense of electric lighting, calcimining the inside of the Eastman building.

Respectfully submitted,

H. H. DUDLEY,

D. E. SULLIVAN,

Buildings and Repairs Committee.

REPORT OF FINANCIAL AGENT, UNION SCHOOL DISTRICT.

The closing of one room in each of the Walker, Eastman, and Chandler buildings during the year, indicates a positive decrease in school attendance, manifest largely in the primary

schools, the upper grammar and high school grades being well attended. One room in the Garrison building was given up only to be re-opened in a few weeks, made necessary by discontinuing one class in the kindergarten and by a revival of the industries in that section. At the present writing the buildings having the smallest enrollment according to the number of rooms outside of the kindergartens are the Dewey and Chandler schools. Undoubtedly by consolidation and re-arrangement of classes more rooms can be discontinued if the present low enrollment continues.

The attendance in the high school next year should be considerably larger, and it is quite probable that one additional school will have to be started in each of the Eastman and Harriet P. Dame buildings.

SCHOOL BUILDINGS.

The buildings of the district are in good condition, commodious and well-appointed for the conduct of the modern school. Cared for by a capable corps of janitors and teachers, they are a credit to the city and the times. The money appropriated for their care this year has been well expended and applied where it was thought it would do the most good. A detailed account of the repairs made may be found in another part of this report. The usual amount of money can well be expended to keep the plant in good working order. A new heating and ventilating apparatus was installed in the Eastman building, thus causing the removal of the last of the old wood stoves from the schools of the district. This apparatus was furnished by the Burroughs, Stone Heating and Ventilating Co. of Boston, Mass., and has so far proved satisfactory. The critical test made January 7, 1910, more than verified the claims made for it. The water used in connection with the system is furnished by pipes from a neighboring spring and is apparently sufficient for all purposes.

SCHOOL EQUIPMENT.

The matter of school equipment is vitally important to the successful prosecution of school work. The buildings are adequate, the teaching force earnest and generally efficient, the text-books modern, the hygienic conditions faithfully guarded and being improved constantly. The supply of such things as wall maps, globes, reference books and supplementary reading matter is not sufficient for the wants of the schools. It would be of great profit if the board could find it advisable to spend a limited sum for reference books, and supplementary readers each year.

HIGH SCHOOL.

The high school course of study remains practically the same as for 1908-'09, the only variations being those which allow a choice of French, history, and biology in the Sophomore Year of the Mechanic Arts course; of French and history in the Junior class of the same course; and of French and mathematics in the Senior year. In the Senior year of the commercial course, bookkeeping and the elements of banking and finance have been placed among the electives.

The enrollment of the school has been the largest in its history, the number of different pupils registered being 495. The largest number present on any one day was 479. This increased enrollment tested the capacity of the building. The biology room has been used for seating pupils and the biology classes transferred to the art room which, with the lecture room and the physical laboratory, has been used for general recitation purposes.

Misses Drake and Dean of last year's teaching corps resigned at the end of the spring term and Miss Palmer in September. The following additions to the corps have been made:

Mr. Walter L. Barnum, Middlebury College, physical geography, and commercial geography.

Mr. Harold C. Bales, Dartmouth College, mathematics.

Miss Mabel Louise Warner, Wellesley College, English

Miss Carrie E. Baker, Boston University, French, history.

Fifty-six students graduated in June, sixteen of whom entered college, seven normal schools and other schools for further work, five the Concord Training School, and two are taking post-graduate work. One post graduate of the class of 1908 also entered college.

The school is in urgent need of a larger library, and I recommend that worn-out books be replaced by new ones and that a reasonable number of new reference books be purchased.

The Assembly Hall is in need of a reading desk for the stage and also a drop curtain that can be managed more easily than the one now used.

The course of study and the work of the school have received the approval of the state department, and although students have failed, it can be attributed in a large degree to their neglect of work and failure to seize the opportunities offered them. The large majority, through faithful and constant effort, have made commendable progress.

THE ELEMENTARY SCHOOLS.

The accomplishments of the elementary schools for the past year have been positive and gratifying when we take into consideration the interruptions caused by the epidemics of measles in the spring and of diphtheria in the fall. Judging from the results of tests given the pupils and from the testimony of the teachers, the work is commendable.

Through the change of text-books in language and geography the course of study is being more rationally adjusted to the capacities of the pupils and relieved of the congestion which has prevailed to an extent hitherto.

Tests for comparing the work of today with that of twenty years ago prove the superiority of the present methods and attainments.

At the beginning of the fall term the course of study for class M was changed to meet the requirements agreed upon by a special committee of the Board of Education, the teachers, and the superintendent. This course, as it stands at present, is divided into three distinct lines of work. The first is intended

to accommodate those pupils who wish to take course one in the High School. The second for those who wish to take either of the other courses. The third is for those whose parents wish them to take the old line of study comprising a full year's work in arithmetic and grammar.

Seventy-eight pupils take the first course; one hundred fourteen the second, and twenty-three the third.

It can be seen readily that this arrangement allows the pupil more latitude than formerly in choosing his schedule of studies, and thus far it is working with satisfactory results. From the number taking each course it may be inferred that the desire for the old line of school work is not so general as is supposed. A course called Good Government was formulated in the fall term for classes G and H and a trial made of it in three different schools. This is a course which correlates ethics, hygiene, the significance of law, and civic pride. The results of the trial were judged to be so desirable and beneficial to the pupils that it was extended to classes I and J in the winter term.

The Palmer system of penmanship was adopted for all the schools after having been on trial for one year in class L. Judging from the enthusiasm of both teachers and pupils as well as from results already apparent, this system will meet the expectations of all in the standard attained.

THE PARKER SCHOOL.

The enrollment of this school is somewhat larger than that of last year. The plan of two sessions, tried here for the first time in its history, has its good and its bad points. The attainments of the pupils are marked where a proper amount of personal effort is shown.

The graduation exercises in June were largely attended, concluding with the dramatization of scenes from Shakespeare's "Merchant of Venice."

The plan of conducting the work in this school is based upon the idea

- (1) That the pupil's time is to be devoted to legitimate school

work without the distracting influence of social functions and athletics, on the principle that public money is appropriated for such purposes only and that five hours a day is none too much time for the requirements of the course.

(2) That nothing can grow educationally which is satisfied with present conditions and does not enrich itself with the consideration of, trying out of, and the adoption of new methods.

(3) That no school can make sufficient progress without a healthy interest manifest at all times, in the recitation, in and about the building, at home, and in the school as a school.

(4) That any traditional method which tends to suppress individual expression of interest, and subordinate it to "mass movement" is too professional, too eliminating, and not the best for attaining the ultimate end of education, social efficiency.

Some of the departures from the ancient style of conducting recitations are noticeable in the following studies:

English Composition: Essay work based on Concord History. Dramatizations from Concord History. Work done without text-books. Punctuation, spelling, etc., from dictation. Care in spelling obtained by various devices. Results: Much improvement noticed in the ability of the pupils to express their thoughts. Unusual enthusiasm for the work, shown by the amount of time pupils spend upon it voluntarily.

History: In connection with American History one lesson is spent upon current events.

English History: Taken by the so-called "Laboratory Method," resulting in more general knowledge gained by the pupils and in economy of school time.

Latin: Studied without text-books after the idea of State Supt. H. C. Morrison. Plan: To enable the pupil to read Latin as he would English. To enter into the proper spirit of the language. The use of perception cards to fix forms, acquire a working vocabulary and sight translation of many sentences thus forming the basis of this rational method. The results thus far show that compared with the old way this scheme has accomplished more than twice as much in the same time.

This for seven weeks work may be summarized as follows: New words learned 143, these are recognized and translated at sight. 39 verbs including the four conjugations, the six tenses of the indicative making a total of 40 forms for each verb. Cases: Subject, object, indirect object, ablative of place and means, genitive of possession, predicate nominative, appositive, adjective. Sentence work: The use of all the above forms in sentences about equally divided between turning Latin into English and English to Latin.

Two passages of consecutive Latin based on Caesar, Book II were read by the class with no apparent difficulty. The work required by Ritchie's First Steps in Latin, 47 pages, and Inglis and Prettyman's First Book in Latin, 47 pages.

Calisthenics: Special work in walking steps. Dumb-bell exercises. Supervision of play in yard. Bean bag exercises for the girls. Field sports for the boys. Football prohibited. This arrangement is appreciated and approved by all.

Tardiness: An effort is being made to teach pupils punctuality. For the year June 18, 1909, the total number of tardy marks for the school with an enrollment of 194 pupils was .94 to a pupil. At the beginning of the fall term an alarming increase was noticeable due to a change in the plan of sessions. This has been stopped and as large a decrease is now shown owing to a contest between the boys and girls.

I think the public has a proper appreciation of the work done here and no further comment is needed by me.

THE DEWEY TRAINING SCHOOL.

The value of well-trained teachers to a public school system can hardly be overestimated. For many years our lower grades of school have been taught quite exclusively by graduates of the training school, young women from our own city, and much of the success gained must be ascribed to this fact. From year to year the entering classes vary in size sometimes being very small and at other times large. At present there are eight teachers taking training, one in the senior class who graduates June, and seven in the junior class. A great

advantage to the schools in general comes from the number of trained substitutes this school furnishes. A day or two of substitution by an untrained teacher amounts to very little more than closing the school, as this time wrongfully used may undo the work which has taken weeks for the regular teacher to accomplish. This availability of good substitutes has a decided bearing upon the unbroken progress which a course of study must have to realize the greatest good and should this be taken away it would soon be apparent in a lowering of the standard of school work.

The training which the pupil teacher receives here is of the best; accurate, thoughtful, sound and forceful, reflecting the characteristics of the training teacher to a great degree. The graduates seldom fail of securing good positions and of retaining them. The class of last June are now all employed by this district except one.

KINDERGARTENS.

The value of kindergartens to a public school system is so universally recognized that the question of retaining them where they have been established does not depend for its answer upon their value. We have had them as a part of our public school system for nineteen years starting with small proportions and increasing in numbers until we now have six well-appointed ones within the district. The only objection which can reasonably be raised now is the one of cost which may be charged up largely to the expense of the teaching force and of having a plant idle two hours out of five. If these very considerable items of expense could be obviated little complaint would be made. The fact that they cost no more here than in other cities perhaps is not consoling enough, so that some means may be suggested for reduction that will not decrease their efficiency. This may be realized by consolidation, by allowing only one teacher to a kindergarten that could not show a monthly enrollment of thirty pupils, and by utilizing the spare time of the kindergartners for afternoon work in the regular schools. I can recommend no policy

which will impair their efficiency nor look toward their elimination.

MILITARY DRILL.

Military Drill has not changed in plan and accomplishment much from last year. The usual functions have been observed and more pupils have uniforms because a less costly kind of material has been used in making them. I again advise allowing an option between this requirement and that of manual training.

MANUAL TRAINING.

MORRILL SCHOOL.

The Morrill School of Manual Training began this year with an enrollment of 368 pupils, 318 of whom came from the grammar schools and 50 from the high school, 30 of the latter taking the Mechanic Arts Course.

At the close of the spring term Mr. Carroll, Mr. Jackson and Mr. Perry all resigned and the vacancies were filled by the election of Mr. A. W. French as master and Mr. J. F. Warren and Mr. Arthur I. Brock as assistants.

The courses are similar to the ones taught in the most approved schools those in wood-working being practically Americanized Sloyd. Besides the models required by the regular courses, each class has made something for the school, their homes and themselves. Those things made for the school include inkstands for the drawing room, tool-racks for the benches, a bulletin board, an electric rectifier for the high school, also patterns for a jig-saw and a tool grinder from which castings will be made and the machines used for the school. Such interest is manifest here that an overtime class has been formed working three times a week making, besides the regular models, small tables, sleds, double-runners, book-cases, magazine stands.

The drawing courses have been revised to conform to those used in large cities. They are thoroughly practical and very important.

One entirely new feature is the lecture room. This room is the one formerly used for the sewing classes having been fitted up for fifty-six pupils, with such accommodations as tablet chairs, blackboards, a demonstration bench, etc. Beginning with class K, problems are demonstrated and made before the pupils. A course of lectures has been arranged for high school pupils which requires the use of note-books and the passing of examinations on the subjects taken up, as follows:

Freshman Class.—The history and use of the different wood-working tools.

Common joints and their application.

Forestry.

Abrasive materials.

Grinding and sharpening tools.

Furniture design.

Carving.

Sophomore Class.—Foundry practice.

Moulding.

Forging machines.

Junior Class.—The manufacture of steel and iron.

The history of architecture.

Building material and methods of construction.

Senior Class.—Machinery.

Machine shop processes.

A reading table has been established furnished with magazines contributed by teachers and pupils, and the students are encouraged to read such magazines as the *Technical World*, *Popular Mechanics*, *Scientific American*, *Woodcraft*, *Machinery*, and others.

Pattern making of the Mechanic Arts Course has been made more complete by the addition of moulding. A moulder's bench, sand and a moulding set have been added to the equipment. The boys are allowed to mould the patterns in sand and pour the mould with Plaster of Paris, thus giving them a

clear idea of the need of draft in patterns and the convenience of split patterns.

Machine-shop practice has been handled, as usual, by Mr. Gordon. He also has had charge of the forging department. Two new forges were installed during the summer, making the equipment four in all. Much work has been done here, and a varied assortment of models are in evidence.

Of the school in general I am glad to say that never before has it been conducted with better methods and with better success. The pupils are intensely interested and progressive. In the Mechanic Arts Course not a boy has dropped out, except one or two who have left school. The fact that they work overtime, work for the school, spend afternoons in foundries watching the process and even doing work there, and also give much time to miscellaneous reading, indicates that the work is being conducted by a corps of teachers who believe that in unity there is strength and that interest is the prime factor in the acquisition of knowledge. The school is in need of additional equipment, and it should be furnished.

SEWING.

The high standard of work which has characterized sewing formerly has been maintained this year. It has been conducted with little friction and not always under the best conditions. The periods assigned to high school pupils come at a time when they are overtired, consequently the best results cannot be realized. It seems desirable that a complete schedule of study should be formulated for each year of the high school course, comprising about what is required for such schools in cities where the work is carried to complete success, so that each successive year of the course the pupil will have something to which she can look forward with ambition.

COOKING.

The usual number of pupils have taken cooking. The high school class has been large, reaching an enrollment of nineteen, only five having dropped out. The course for this class

has been arranged for the study of an ideal home and its requirements, as well as the planning, cooking and serving of simple complete meals in connection with the regular lessons in cookery.

There is need of a dining-table for the school and a set of dishes of uniform pattern. The cooking pamphlets furnished in the fall have proved to be a great help in the saving of time and labor. Nearly all the pupils, and many from outside the classes, have purchased them for their personal use.

DRAWING.

Allowing for time given the subject of drawing, it is making marked advancement. On account of the lack of time in the lower grades the work in construction and weaving has been omitted. Much attention is being given to perspective and the drawing of natural sprays. Charcoal work, water-color studies and original design are successfully carried out in the high school. The time of the drawing teacher is entirely occupied, so that the requisite amount of supervision cannot be given to basketry and raffia work. I dislike to make the recommendation that this be discontinued, for it departs from the spirit of modern education, but unless the work can have skilled supervision more than once each month, it would better be given up. Any course that tends to minimize hand training in connection with the ordinary school studies is not in accord with the best ideas, and economy of school time can never be fully realized when it is wholly occupied with books.

The exhibition of drawing in June showed a large amount of work that had been done and a good degree of excellence.

. Music.

The study of music has been conducted with an average measure of success. The power to read music at sight has made remarkable advances during the past few years; thanks to intelligent supervision, an earnest corps of teachers and a fair equipment in material. The usual excellence in class singing is noticeable, and the high school musical organizations are up to the standard.

NIGHT SCHOOL.

The attendance in the night school of 1909 was larger by 21 than that of the previous year. This year it fell off 13. The attendance in this school is a variable quantity. Many, different, and often insignificant things affect it to bring about this result. In the preliminary notice, students for advanced studies were solicited, but there was only a feeble response. Four students wished to take French and nothing else. The uselessness of attempting this, of course, is apparent to all. The number of applications for other advanced studies was inconsequential, and until a sufficiently large number signify their intention of taking such studies and of keeping up a reasonable attendance, money spent for advanced work will be practically wasted.

The corps of teachers for 1909 was George W. Parker, principal; Grace L. Putnam, Ellen B. Turcotte and Bernice E. Hoyt, assistants.

For 1910, George W. Parker, principal; Grace L. Putnam and Margaret T. Kelley, assistants. On account of poor attendance, the highest room was discontinued at the end of the seventh week.

SCHOOL HYGIENE.

The unusual interest in school hygiene manifested throughout the country is evident here in public meetings and in the appointment of a committee on hygiene by the Board of Education. This committee has been active, and the schools have profited by what has been accomplished. We can confidently expect that the efficient work will be continued and that it will not stop short of realizing those hygienic conditions which modern schools demand. It is well, however, not to let sentiment and an undue amount of enthusiasm on these subjects run riot with public funds, but, rather, that the utmost deliberation be used in furnishing improvements at the lowest possible expenditure consistent with efficiency.

Permit me to call your attention to the following things which are of importance:

I think definite regulations should be made governing the admission of light into schoolrooms. There are some instances where the amount of light provided is not utilized to the extent

that it ought to be. There are rooms where the light is admitted from the wrong direction and should be changed so as to come from the rear to the left.

Eastman School, two rooms.
Merrimack School, two rooms.
Penacook School, two rooms.
Tahanto School, two rooms.
Walker School, two rooms.

As fast as available funds permit, the old, fixed desks should be changed for the modern adjustable desks. There are quite a number of instances where the desks are too large for the pupils, so large that their feet fail of touching the floor, and pieces of plank are furnished on which they may rest them. There are also many combination desks, which are a constant menace to proper growth and threaten bodily deformity.

The course in hygiene could well be made more complete from the fifth year of school, and regulated so as to extend throughout the entire course, as the state law requires.

The health of public school pupils, both in school and out of school, cannot be too strictly guarded. This is of as much importance as strict attention to mental development. Particularly true is it of the highest grades; so vital in importance, and so delicate in nature, that it can be brought about best by a required course in hygiene, taught to the girls by a skilled woman and to the boys by an efficient man, to the end that they may lead clean, pure lives by becoming strong and healthy.

I recommend medical inspection of the schools three times a year, and these inspections to be carried into effective execution by a school nurse. While the conditions here may not be so bad as in some of the larger cities, nevertheless they are bad enough for us to afford the greatest protection to school pupils from all forms of infectious disease. In some instances the time of the teacher is occupied about as much with the outside of the head as with the inside. I have no doubt but that, working harmoniously with the city board of health, this can be done at a reasonable cost.

Those things that have been accomplished during the year are as follows :

- The fumigation of all the text-books.
- The installation of sanitary drinking fountains.
- Oiling the floors of all the buildings.
- Improved heating, ventilation and sanitation for the Eastman School.
- Improved ventilation in the Cogswell School.
- Liquid soap.
- Paper towels.
- Sanitary dustcloths.
- Individual pencils.

Under the general subject of hygiene the question of school athletics should be discussed as one that is related to the proper bodily development of all students not simply the few selected for school teams. The mania for school athletics as evidenced for the past few years in maimed bodies, weak hearts and other bodily ills is finding little favor with profound thinkers. Athletic development in schools should be for the entire student body, not for the few who from their natural physical constitution, aided by armor, are able to wear down some less fortunate opponent in brutal contests. Such a condition is not in accord with modern life because it is inefficient in aiding the great mass of students who are to form the bulk of our population in the future. The public school should deal with hygienic exercises for all, everybody, boys and girls to the end that girls through systematic games and plays may be made physically strong, earnest, energetic, womanly women, and that boys may be made physically strong, ethically strong, manly men.

Such a course is needed in our schools to offset the maudlin sentiment displayed by a large majority of the students in applauding contests of physical endurance which cause serious injuries to fellow students.

ELIMINATION OF PUPILS FROM SCHOOL.

About once in every ten years there is concern about the elimination of pupils from the public schools. This very recurrence establishes beyond question the gravity of the subject, and the fact that conditions now may be somewhat better than they have been in the past will not warrant its dismissal without further consideration. It is well known that a low percentage of promotions extending without much variation through a succession of years can be explained only by ascribing it to a poor adjustment of the course of study to the capacities of the pupils. All other things appear as minor causes. If, on the contrary, a reasonable percentage of promotions prevails, then a low rate for one or two years at a time may be attributed to some minor cause such as an epidemic of contagious disease. A continued high rate of promotion in any one grade suggests that some other grades in the school system are paying for it. The mere fact that this rate is high in one city and much lower in another is insignificant unless it can be shown that the student populations are about equal in average intelligence, and that like conditions prevail in other respects. The matter of *obtaining* a high rate of promotion is easy of solution if one can satisfy his conscience as to the *method* of obtaining it. On an average the maximum attendance of a class is to be found in the lowest primary grade, and the minimum attendance in the senior class of the high school. Ordinarily a class numbering 300 in the first year primary school would decrease gradually to about sixty in the senior class in the high school. This gradual elimination is due to various causes, the greatest of which is retardation of the pupil by failure to grasp certain studies so that eventually he becomes too old and too large for the grade, and, being discouraged, drops out to seek employment.

The specific causes for non-promotion in the middle of this year are as follows:

1. General deficiency in studies	79.42%
2. Deficient in reading	12.69
3. Deficient in arithmetic	7.26
4. Parent's desire63

The minor causes for No. 1 (General deficiency in studies) were as follows :

1. Absence from school for sickness and other reasons	38.92%
2. Feeble-minded31
3. Low mentality	2.52
4. Laziness94
5. Immaturity	5.68+
6. Defective vision	2.52+
7. Defective hearing94+
8. Defective speech31+
9. From country schools	6.63+
10. Physical weakness31+
11. From non-English speaking parents94+
12. Lack of general ability	17.69+

It can be seen from this table what effect an epidemic of disease may have upon the progress of pupils.

The responsibility of promoting pupils rests upon the teacher, and it is generally done with good judgment. Probationary promotion is passed upon by the superintendent, so that pupils may have every chance to progress and not be retarded when age and other circumstances suggest that they would better be advanced.

The average rate of promotion under the old style course of study in 1887 and onward seven years, was 76.7 per cent. This was manifestly due to a poor adjustment of the course. The average rate during the last seven years under the revised course was 82.1 per cent., showing a more reasonable adjustment.

There are many pupils who would receive benefit from more individual help in their studies, and there are various ways in which this may be realized without entailing too great an expense.

(1) I suggest that a trial of supervisory principalships be made next year in at least two of the large buildings. The advantages derived from this would be a closer supervision of all grade work, much individual help in special cases, and

available substitutes for upper grammar grades when they are not to be had elsewhere.

(2) I advise that most earnest consideration be given the matter of semi-annual promotions for all grades of school. Some of the advantages of this scheme would be (1) Decreasing the number of retardations and reducing the time of retardation one half. (2) Doing away with the annual graduation. The gain here would appear in saving the parent the cost of clothes for graduation, the tremendous strain on teacher and pupil who are obliged to carry the regular school work, and at the same time do the work preparatory to graduation. (3) In completing the course in the middle of the year when chances for employment may be improved. The plan has been in operation through the first five grades for a number of years, and has proved its worth.

(3) I also most earnestly advise the trial of an industrial class in the Morrill Manual Training school. Such a course would allow students of the various grades, who are too old and disinterested to continue there to advantage, to take a course here in general shop-work and such common school studies as may be desirable. This plan is successfully carried on in some cities. For a class numbering ten pupils or under, it could be done without extra cost for teaching force.

I believe the above recommendations, if they are faithfully carried out, will materially reduce the number of delinquents. I have no doubt that much waste of time occurs in insisting upon course requirements which have been rendered valueless by increasing complex social conditions, and, as the end of education seeks the highest form of social life, I think that a realization of this as far as the public school is concerned can be attained by requiring more efficient teaching, reducing the average number of pupils to a teacher, specializing the work of teachers, teaching pupils how to study as well as to recite, more frequent promotions, and by special classes.

CONCLUSION.

The usual functions of a school report having been observed, it may not be considered without its province in conclusion to call to mind matters which are occupying the attention of those who, by common consent, determine the general trend of educational thought at the present time.

The elective system in colleges is being brought within more rational limits. College life is being broadened and enriched by discounting standardization and promoting individual freedom and individuality.

Vocational training as a substitute for strictly cultural training of the past is making remarkable progress. This movement, international in scope, is essentially democratic having for its aim intelligent citizenship through practical achievement and careful study of the individual capacities of pupils during the entire school course.

The subject of backward and delinquent children is engaging the closest study so that, by segregation and special instruction, the student body and the teaching force may be relieved of the fruitless attempt to bring these mental delinquents up to a required uniform standard.

School reports and standard publications are devoting much space to the proper supervision of play.

The use of school buildings for social purposes is being practised in crowded centers. This is usually done by local civic organizations without drawing upon the school fund.

The most discussed subject of all is the high school problem in general and special problems within. It is quite possible that much good will come of this in the elimination of formal disciplinary study, and in joining the study of the subject with that of the development and improvement of the individual. The enumeration of even these few things serves to remind us that along with other lines of activity the educational world is not at rest but is being enriched by the products of the best trained minds and by a broad healthy movement.

The past year has been full of fruitful results in education. No matter how we look at it, in activity, interest, appropri-

tion of money, erection of buildings, adoption of practical courses, both in public and private institutions of learning, there has been a momentum that cannot but impress us all with its significance.

New methods are being considered and weighed in the balance, not summarily cast aside because they conflict with that which has become traditional. It then becomes the part of all interested in the cause of education to make every effort to keep pace with the times, and, through unity of action resulting from most careful consideration, make the schools of Concord synonymous with progress and success.

My work for the past year has been lightened by the help which I have received from the Board of Education, citizens, a very earnest teaching corps, and not the least by the kindly greetings of the pupils in my daily work.

All this I most graciously acknowledge in submitting this report.

L. J. RUNDLETT,
Superintendent.

UNION SCHOOL DISTRICT CENSUS, 1909.

SUMMARY.

Whole number enumerated	3,339
Increase from 1908	77
Boys	1,603
Girls	1,736
Number attending school since September, 1908	3,203
Number attending public schools	2,537
Number attending parochial schools	633
Number attending private schools	16
Number attending Rolfe and Rumford Asylum	17
Number between 5 and 16 not attending regularly	67
Number between 8 and 14 not attending regularly	21
Number between 14 and 16 not attending regularly	20
Number between 10 and 16 not able to read and write the English language	2
Number born in New Hampshire	1
Number born elsewhere in the United States	1
Number moved into district since September, 1908	145

NATIVITY OF PARENT.

American born	2,193	Nova Scotian	18
Foreign born	1,146	Prince Edward Island	19
West Indies	1	Finn	20
Negro	1	Scotch	32
New Brunswick	3	Russian	42
Pole	4	Italian	53
Roumanian	5	English	93
Dane	7	Swede	131
Armenian	7	Irish	245
German	8	French Canadian	456

NATIVITY OF CHILD.

American born	3,208	Scotch	10
Foreign born	131	Prince Edward Island	12
Irish	1	Italian	12
Roumanian	2	Russian	20
Finn	4	English	22
Swede	5	French Canadian	43

JANUARY 7, 1910.

STATISTICS.

Miss Jones' Room.

Intake— $360 \times$ (area of flue $5\frac{1}{2}$ sq. ft.) 5 sq. ft. = 1800 cu. ft. \div
 $40 = 45$ cu. ft. per pupil per minute hot air on.

5 sq. ft. = 1800 cu. ft. $\div 50 = 36$ cu. ft. per pupil per
minute hot air on.

Exhaust— $360 \times$ (area of flue $5\frac{1}{2}$ sq. ft.) 5 sq. ft. = 1800 cu.
ft. $\div 40 = 45$ cu. ft. per pupil per minute hot air on.

1800 cu. ft. $\div 50 = 36$ cu. ft. per pupil per minute hot
air on.

Miss Knowlton's Room.

Intake— $600 \times$ (area of flue $5\frac{1}{2}$ sq. ft.) 5 sq. ft. = 3000 cu. ft.
 $\div 40 = 75$ cu. ft. per pupil per minute hot air on.

3000 cu. ft. $\div 50 = 60$ cu. ft. per pupil per minute hot
air on.

Exhaust— $360 \times$ (area of flue $5\frac{1}{2}$ sq. ft.) 5 sq. ft. = 1800 cu.
ft. $\div 40 = 45$ cu. ft. per pupil per minute hot air on.

Miss Flavin's Room.

Intake— $480 \times$ (area of flue $5\frac{1}{2}$ sq. ft.) 5 sq. ft. = 2400 cu. ft.
 $\div 40 = 60$ cu. ft. per pupil per minute hot air on.

2400 cu. ft. $\div 50 = 48$ cu. ft. per pupil per minute hot
air on.

$300 \times$ (area of flue $5\frac{1}{2}$ sq. ft.) 5 sq. ft. = 1500 cu. ft. \div
 $40 = 37.5$ cu. ft. per pupil per minute cold air on.

1500 cu. ft. $\div 50 = 30$ cu. ft. per pupil per minute cold
air on.

Exhaust— $675 \times$ (area of flue $5\frac{1}{2}$ sq. ft.) 5 sq. ft. = 3375 cu.
ft. $\div 40 = 84.375$ cu. ft. per pupil per minute hot
air on.

3375 cu. ft. $\div 50 = 67.5$ cu. ft. per pupil per minute ho
air on.

$320 \times (\text{area of flue } 5\frac{1}{2} \text{ sq. ft.}) 5 \text{ sq. ft.} = 1600 \text{ cu. ft.} \div 40 = 40 \text{ cu. ft. per pupil per minute cold air on.}$

$1600 \text{ cu. ft.} \div 50 = 35 \text{ cu. ft. per pupil per minute cold air on.}$

The standard is the supply of 30 cu. ft. per pupil per minute. This test is made for 40 pupils (standard) and also 50 pupils.

The largest number in any room is 42 pupils.

This test is much above the standard.

Respectfully submitted,

L. J. RUNDLETT,

Agent.

ANNUAL SCHOOL MEETING WARRANT.

STATE OF NEW HAMPSHIRE.

To the Inhabitants of Union School District in Concord qualified to vote in district affairs:

You are hereby notified to meet at the Auditorium on Prince Street in said district on the twenty-fifth day of March, 1909, at 7.30 o'clock in the evening, to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To hear and act upon the reports of the Board of Education for the past year.
4. To choose three members of the Board of Education to hold office for three years to fill vacancies arising from the expiration of the term of office of Edward N. Pearson, Ella H. J. Hill, and George H. Moses and to choose one member to hold office for one year to fill the vacancy caused by the resignation of George M. Kimball and to fill any other vacancies that may occur in said board.
5. To choose one or more auditors and all other necessary officers for the ensuing year.
6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.
7. To see what sum of money the district will raise and appropriate for the support of schools for the ensuing year, including industrial education, military drill, and calisthenics, and night school.
8. To see what sum of money the district will raise and appropriate for occasional and extraordinary repairs of the school buildings during the ensuing year.
9. To see what sum of money the district will raise and appropriate to provide a modern heating, ventilating and sanitary system at the Eastman School.

10. To transact any other business that may legally come before said meeting.

Given under our hands this third day of March, 1909.

(Signed) EDWARD N. PEARSON,
 ELLA H. J. HILL,
 GEORGE H. MOSES,
 JOHN VANNEVAR,
 ALICE M. NIMS,
 FANNY E. MINOT,
 E. B. HUTCHINSON,
 D. E. SULLIVAN,

Board of Education.

I certify that on the eighth day of March, 1909, I posted a copy of the written warrant, attested by the Board of Education of said district at the place of meeting within named, and a like attested copy at the police station in the city of Concord, N. H., being a public place in said district.

(Signed) LOUIS J. RUNDLETT.

CONCORD, N. H., March 8, 1909.

Personally appeared before me, on this date, the said Louis J. Rundlett and made oath that the above certificate by him signed is true.

(Signed) ARTHUR L. WILLIS,
 Justice of the Peace.

A true copy of the warrant, return of service and certificate of the oath.

Attest:

LOUIS C. MERRILL,
 Clerk.

ANNUAL SCHOOL MEETING.

CONCORD, N. H., March 25, 1909.

Agreeably to the foregoing warrant a meeting of the legal voters in Union School District was held at the Auditorium in the city of Concord, N. H., at seven-thirty o'clock in the evening.

The meeting was called to order by the moderator, John B. Abbott, who read the following warrant:

ARTICLE 1. Mr. Henry H. Metcalf moved that the clerk cast one vote for John B. Abbott, and it was so voted. The clerk cast the vote as directed for John B. Abbott, and he having all the votes cast was declared elected moderator, and was duly sworn by Samuel C. Eastman, justice of the peace.

ART. 2. Mr. George H. Moses moved that the moderator cast one vote for Louis C. Merrill as clerk, and it was so voted. The moderator cast the vote and declared Louis C. Merrill elected as clerk, and he was duly sworn by John B. Abbott, justice of the peace.

ART. 3. Mr. John M. Mitchell moved to accept the reports as printed, and it was so voted.

ART. 4. Mr. Henry H. Metcalf moved to proceed to ballot for three members of the Board of Education for three years, and for one member of the Board of Education for one year, and that they be voted for on one ticket, and that the polls be kept open till eight-ten o'clock, and it was so voted. The moderator then called for votes, and appointed William J. Ahern, Walter L. Jenks and James K. Kennedy to sort and count the ballots. Mr. George H. Moses moved to consider the other articles of the warrant pending the closing of the polls, and it was so voted.

ART. 5. Mr. John M. Mitchell moved that Henry H. Metcalf and John P. George be elected auditors for the ensuing year, and it was so voted, and they were declared elected.

ART. 6. Mr. Charles J. French offered the following resolution and moved its adoption:

Resolved, That there be raised by tax on the polls and ratable estates within Union School District the sum of thirteen thou-

sand four hundred forty dollars (§13,440), of which sum seven thousand dollars (§7,000) shall be appropriated for the payment of bonds maturing October 1, 1909, and six thousand four hundred forty dollars (§6,440) for the payment of the interest on its funded debt accruing during the year.

Mr. French's motion being seconded, a vote was taken, and the resolution declared adopted.

ART. 7. Mr. Burns P. Hodgman offered the following resolution :

Resolved, That there shall be raised by tax on the polls and ratable estates within Union School District, for the support of schools for the ensuing year, such a sum as in addition to the sum assigned to the district by the city of Concord out of the appropriation for schools will amount to the sum of eighty thousand three hundred twenty-eight dollars and sixty-three cents (§80,328.63).

Mr. Hodgman moved the adoption of the resolution and his motion being seconded, a vote was taken and the moderator declared the resolution adopted.

ART. 8. Mr. John M. Mitchell offered the following resolution and moved its adoption :

Resolved, That the sum of two thousand five hundred dollars (§2,500) be raised by taxation upon the polls and ratable estates within Union School District and appropriated for occasional and extraordinary repairs of school buildings, and that the expenditure of such a sum shall be under the direction of the Board of Education.

Mr. Mitchell's motion was seconded, a vote taken, and the resolution declared adopted.

ART. 9. Mr. George H. Moses offered the following resolution :

Resolved, That there be raised and is hereby ordered to be raised on the polls and ratable estates within Union School District, the sum of three thousand dollars (§3,000) and the

same appropriated for providing the Eastman School building with a modern system of heating, ventilation, and sanitation, and that the expenditure of such a sum shall be under the direction of the Board of Education.

Mr. Moses moved the adoption of the resolution, his motion being seconded, a vote was taken, and the resolution declared adopted.

ART. 10. Mr. Frank E. Shepard offered the following resolution and moved its adoption :

Resolved, That there be raised and is hereby ordered to be raised on the polls and ratable estates within Union School District, the sum of five hundred dollars (\$500) and appropriated for the employment of a truant officer in said district for the ensuing year.

Motion seconded, a vote taken, and the moderator declared the resolution adopted.

ART. 11. Mr. Elwin L. Page offered the following resolution :

Resolved, That there be raised and is hereby ordered to be raised on the polls and ratable estates within Union School District, the sum of one hundred and fifty dollars (\$150) and appropriated for taking the school census of said district for the ensuing year.

Mr. Page moved the adoption of the resolution, his motion was seconded, a vote taken, and the resolution declared adopted.

Moderator declared the polls closed at 8.10 o'clock.

The committee appointed to sort and count the votes reported as follows :

Whole number of votes cast for three years' term,	104
Necessary for a choice,	53
Eben M. Willis had	1
Edward N. Pearson had	1

Harry F. Lake had	3
Mrs. Charlotte G. Kimball had	1
George H. Moses had	99
Carrie E. Evans had	102
William H. Sawyer had	103
Whole number of votes for one year term,	104
Necessary for a choice,	53
Burns P. Hodgman had	1
Harry H. Dudley had	103

and the moderator declared George H. Moses, William H. Sawyer, and Carrie E. Evans elected members of the Board of Education for three years, and Harry H. Dudley for one year.

Carrie E. Evans, George H. Moses, and Harry H. Dudley then took the oath of office as members of the Board of Education before Louis C. Merrill, justice of the peace.

On motion, it was voted to adjourn.

A true record. Attest:

LOUIS C. MERRILL,
Clerk.

CONCORD, N. H., March 31, 1909.

Personally appeared this day William H. Sawyer and took the oath of office, as a member of the Board of Education of Union School District, before me as a justice of the peace.

LOUIS C. MERRILL,
Clerk.

PUBLIC PARKS.

	<hr/>	32.25

COURT HOUSE PARK.

Paid for labor,		33.00
		<hr/>
		\$3,635.03

The year has not shown any new work of importance. At White Park, in order to meet the increasing demand for sports, the playground has been regraded, and will need still further repairs to put it in first-class condition. The unusual interest in baseball has drawn large crowds during the long summer evenings. The new street railroad line through White and Beacon Streets will make it easier to reach the place, and undoubtedly will bring larger crowds. There is a demand for a larger outlay on the playground at Rollins Park which should be made, but the commissioners cannot carry on these improve-

ments without an increased appropriation. With the new interest in civic improvement, it would seem wise to make a larger appropriation to meet these demands, also to establish playgrounds. This subject has been agitated by a committee from the Woman's Club, who have also aided by the holding of public meetings to interest the citizens in general in the beautifying of our city. This is a matter which needs coöperation, and the commissioners desire to be helpful in every direction possible, for it is by the combined efforts of all that our city will grow more attractive as the years go by.

CHARLES J. FRENCH, *Mayor, ex-officio*,
WILLIS D. THOMPSON,
GARDNER B. EMMONS,
WILLIAM P. FISKE,
CHARLES P. BANCROFT,
B. C. WHITE,
WILLIS G. C. KIMBALL,

Commissioners.

PARKS.	Year.	Appropriation.	Gifts.	Receipts from other sources.	COST TO DATE.		Total.	Area.	NOTES.
					Land.	Construction and maintenance.			
WHITE PARK, the gift of Mrs. Nathaniel White.....	1884	*\$37,550.70	\$2,250.00	\$1,022.50	\$2,100.00	\$54,251.17	\$59,623.67	23½ acres.	White Park has received the following gifts: Mrs. N. White, \$1,700.00 Mrs. C. H. Newhall, 500.00 Mr. C. H. Newhall, 50.00 for bridge, 50.00 The city made addition to original gift, paying therefor \$2,100.

REPORT OF THE COMMISSIONERS OF CEMETERIES.

To the City Council :

The amount placed at our disposal for the year 1909 for Blossom Hill Cemetery amounted to \$6,741.77, of which we have used \$6,635.14, leaving a balance unexpended of \$106.63. For the Old North we received \$458.08 and used \$455.60, leaving a balance of \$2.48. These balances we think should be credited to us for the next year, as they are specially allowed us by city ordinances for the cemeteries and should not be used for any other purpose.

The expenses have been for the general care of the cemeteries and the purchase of trees and shrubs, for detailed account of which we refer you to the report of the city treasurer. The burials for the past year have been in Blossom Hill Cemetery two hundred and two (202) and in the Old North seventeen (17). We think the same appropriations should be made for the coming year, viz.: One thousand dollars for Blossom Hill and one hundred dollars for the Old North, which if placed at our disposal will be expended, we trust, in a manner that will merit your approval.

GEORGE A. FOSTER,

Secretary.

To His Honor the Mayor and the City Council :

The West Concord Cemetery Committee respectfully submit the following report for 1909 :

Cash on hand January 1,	\$0.82
Sale of lots,	65.00
	<hr/>
	\$65.82

Total expenditures,		
Unexpended,		\$0.61

FRANK G. PROCTOR,
ISAAC N. ABBOTT,
ALBERT S. TRASK,
Committee.

ASSESSORS' REPORT.

To the Taxpayers of the City of Concord:

The board of assessors submit for your consideration the following items and tabulations showing the valuations of property assessed, the amounts raised by the state, county, and city for general purposes, also the special appropriations for schools and precincts, the resulting rate and the total committed to the tax collector.

Owing to a large increase in the state tax and for schools, the rates have been higher than heretofore. As an offset, to secure as reasonable rates as consistent with the needs of the city, the board omitted to add the usual per cent. for abatements, but depending on *the fractional* additions to each rate, has raised thereby \$2,171.76; this, in addition to the supplementary taxlist and interest collected, gives us an amount in excess of that of 1908 for abatements. The returns of railroad stock held in this city were made, as has been the custom heretofore. Under an act of the last Legislature, we have lost heavily on the total returns. A comparison herein made shows the number of shares lost over last year.

The work has been done by the following assessors:

- Ward 1. Oliver J. Fifield.
- Ward 2. William A. Cowley.
- Ward 3. Joseph E. Shepard.
- Ward 4. George W. Parsons.
- Ward 5. George A. Foster.
- Ward 6. Osro M. Allen.
- Ward 7. John H. Quimby.
- Ward 8. William A. Lee.
- Ward 9. James J. Donagan.

ITEMS OF VALUATION.

Number of polls, 1908,	5,289	\$528,900

WENDELL P. LADD,
Collector.

CONCORD, N. H., January 1, 1910.

REPORT OF THE CITY SOLICITOR.

To the City Council:

I respectfully submit the following report for the year 1909:

At the beginning of the year 1909 the following suits against the City of Concord were pending in court: Concord Street Railway *v.* Concord, an appeal taken by the Concord Street Railway from an award of damages to it by the Board of Mayor and Aldermen upon the laying out of a highway in Penacook; Joseph Stickney *v.* Concord, a petition for an abatement of taxes for the year 1900; Joseph Stickney *v.* Concord, a petition for an abatement of taxes for the year 1901; Jennie P. Martin *v.* Concord, a suit to recover damages for injury to the plaintiff's real estate on the corner of South State and Downing Streets which she claims has been caused by the backing up of water and sewerage by reason of insufficient and defective sewer; Carolyn F. Stickney *v.* Concord, an appeal from an award of \$300 damages made to the plaintiff by the Board of Mayor and Aldermen on account of the laying out and construction of a sewer from North Main Street through the plaintiff's land to the river; John N. Lane *v.* Concord, a writ of entry in which the plaintiff claims that in the recent improvements on the road leading to St. Paul's School the city has encroached upon and taken some of his land without right; Asa Emery *v.* Concord, an appeal from an order of the Board of Mayor and Aldermen widening and straightening the Fisherville Road, so called, at a point opposite land belonging to the plaintiff.

The cases of Concord Street Railway, Joseph Stickney, Jennie P. Martin and Carolyn F. Stickney have not been pressed by the plaintiffs and no progress has been made in them since my last report. The case of John N. Lane has been settled by the payment to him of \$150 for land belonging to him taken into the highway and for his damages caused by raising the highway opposite his premises.

The case of Asa Emery was referred by the court to the county commissioners. A hearing was had before the commissioners and they awarded to Mr. Emery the sum of \$150 for land taken in widening and straightening the highway opposite his premises. Upon the filing of the commissioners report Mr. Emery moved for a trial of the question of damages by jury and the matter now stands in the Superior Court on this motion. If Mr. Emery insists on trying this question by jury it will undoubtedly be tried at the April term, 1910, of the Superior Court. If he abandons this motion the city must pay him the amount awarded by the commissioners, \$150, with the cost of the trial.

At the April Term, 1909, of the Supreme Court, St. Paul's Church entered a petition against the city of Concord praying for an abatement of the taxes assessed by the city on the Roger E. Foster Memorial Parish House on Center Street for the year 1908. The claim of St. Paul's Church was that this building was exempt from taxation under Public Statutes, chapter 55, section 2, as a house of public worship. On behalf of the city I claimed that this building was not entitled to exemption from taxation as a house of public worship because it was regularly let for hire for social gatherings, lectures, concerts, musicales and dances. This case is now in the Supreme Court for a determination of this question. It has been briefed and argued by both sides and I expect a decision soon.

On August 2d, 1909, Gilbert S. Hibbard served a notice on the city claiming that while traveling on Appleton Street he and his team were injured by reason of a defective and insufficient culvert and claiming damages in the sum of \$5,000. On August 18th William H. Johns served a notice on the city claiming that while traveling on Birchdale Road he and his team were injured by falling over a dangerous embankment defectively railed and claiming damages in the sum of \$75. On December 13th Fred Sanville served a notice on the city claiming that while traveling on Clinton Street his horse was injured by reason of a defective culvert and claiming damages

in the sum of \$100. None of these parties have yet brought suit against the city.

I have, during the year, prosecuted many criminal cases for the police department before the police court. I have also given advice and assistance when required to the various departments of the City Government and to committees and members of the City Council.

Respectfully submitted,

EDMUND S. COOK,

City Solicitor.

DECEMBER 31, 1909.

REPORT OF CLERK OF POLICE COURT.

CONCORD, N. H., March 4, 1910.

To the City Council:

The clerk of the police court submits the following report:

Number of civil cases entered in court January to December, 1909, inclusive, was 54.

Received entry fees for same at 50 cents each, twenty-seven dollars (\$27.00).

Paid to city treasurer, twenty-seven dollars (\$27.00).

Respectfully submitted,

RUFUS H. BAKER,

Clerk of Police Court

REPORT OF CITY PHYSICIAN.

To the City Council:

I have the honor to submit the following report for the year ending December 31, 1909:

Number of calls made at houses of city poor,	77
Office consultations, city poor,	30
Number of calls made at Police Station,	10
Number of house calls made for health department,	44
Number of office calls, health department,	18
Number of school-rooms inspected,	31
Number of school children vaccinated,	121

As an *ex-officio* member of the board of health, I have attended all of its monthly meetings, acting as secretary of the organization.

A school inspection, of which you will note there were 31, means a careful personal examination of every pupil in the room, *i. e.*, from 30 to 40 children.

These examinations were made for the purpose of detecting incipient cases of contagious disease.

Respectfully submitted,

CHARLES H. COOK,

City Physician.

CONCORD, N. H., January 7, 1910.

POOR DEPARTMENT.

FORTY-SECOND ANNUAL REPORT OF THE OVERSEER OF THE POOR,

FOR YEAR ENDING DECEMBER 31, 1909.

	<u> </u>	\$485.75

Capital and unexpended income deposited in New Hampshire Savings Bank.

WEST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the West Concord sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund which provided that the following amounts should be raised annually upon the taxable property of the precinct, for the purpose of paying the bonds as they mature, viz.

\$1,400 annually for five years from October 1st, 1907.

Balance on hand January 1, 1909,	\$2,447.76	
Income received, 1909,	97.88	
Received from City of Concord,	1,400.00	
	<u> </u>	\$3,945.64
Transferred to City of Concord general account in accordance with joint resolution passed by city council, March 31, 1909,	\$400.00	
Deposited in Union Guaranty Savings Bank,	3,545.64	
	<u> </u>	\$3,945.64

PENACOOK SEWER PRECINCT SINKING FUND.

The city ordinance establishing the Penacook sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund, which provided that the following amounts should be raised annually upon the taxable property of the precinct for the purpose of paying the bonds as they mature, viz.

\$100 annually for fifteen years from October 1, 1900.		
1,000 annually for five years from May 1, 1908.		
500 annually for six years from July 1, 1914.		
500 annually for three years from October 1, 1915.		
Balance on hand January 1, 1909,	\$1,390.37	
Income received, 1909,	55.60	
Received from City of Concord,	1,100.00	
	<hr/>	\$2,545.97
Balance on hand January 1, 1910,		2,545.97
Capital deposited in Union Guaranty Savings Bank.		

EAST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the East Concord sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund, which provided that the sum of one hundred dollars (\$100) should be raised annually for twenty years from July 1, 1895, upon the taxable property of the precinct for the purpose of paying the bonds as they mature.

Balance on hand, January 1, 1909,	\$380.28	
Income received, 1909,	15.20	
Received from City of Concord,	100.00	
	<hr/>	\$495.48

OLD NORTH CEMETERY RECEIPTS.

Amounts received from sundry collections and income of permanent funds are added to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor, from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

RECEIPTS.

BLOSSOM HILL CEMETERY RECEIPTS.

One half of the receipts for the sale of lots is added annually to the permanent fund. The remaining half, with the amount received for grading of lots sold, together with the amounts received from sundry collections and income of permanent fund, are added each year to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

I hereby certify that I have examined the foregoing account of William F. Thayer, city treasurer, for the year 1909, and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and cash balance to be fifty-eight thousand two hundred thirty-nine dollars and ninety-eight cents (\$58,239.98), and as treasurer of the city water department, cash balance to be twenty-eight thousand six hundred eighty-two dollars and forty-seven cents (\$28,682.47).

I have also verified the account of the trust and sinking funds of the city, and find such trust and sinking funds invested, and the income thereof, for the year 1909, accounted for, as shown by the book of the city treasurer, kept for that purpose.

HENRY E. CHAMBERLIN,

City Clerk.
